To His Excellency, Joseph A. Wright,
Governor of the State of Indiana:

Sir:—The Board of Trustees of Indiana University present the following as their Annual Report for the Academic year ending August 2d, 1854.

Respectfully,

JOHN I. MORRISON,
President of the Board.

In 2 nd B
1853/54 - 1874/75

VISITORS.

His Excellency, Joseph A. Wright, Governor of the State,
Hon. Ashbel P. Willard, Lieutenant Governor,
" Oliver B. Torbet, Speaker of the House of Representatives,
" Samuel E. Perkins, Judge of the Supreme Court,
" William Z. Stewart, " " "
" Andrew Davison, " " "
" Alvin P. Hovey, " " "
Prof. William C. Larrabee, Superintendent of Public Instruction.

THE BOARD OF TRUSTEES.

Hon. JOHN I. MORRISON, of Washington county,
WILLIAM M. DUNN, Esq., of Jefferson county,
GEORGE EVANS, Esq., of Henry county,
JOSEPH S. JENCKES, Esq., of Vigo county,
Hon. C. L. DUNHAM, of Jackson county,
MICHAEL MALOTT, Esq., of Lawrence county,
Rev. PATRICK J. R. MURPHY, of Martin county,
Col. THOMAS M. ADAMS, of Brown county,
JOHNSON McCULLOUGH, Esq., of Monroe county,
NATHANIEL C. BROWNING, Esq., of Monroe county,
Dr. JOSEPH G. McPHEETERS, of Monroe county.

OFFICERS OF THE BOARD.

Hon. JOHN I. MORRISON, President.
JOSEPH M. HOWE, Esq., Treasurer.
Dr. J. DARWIN MAXWELL, Secretary.

FACULTY.

Rev. WILLIAM M. DAILY, D. D.,

PRESIDENT,

AND PROFESSOR OF MENTAL AND MORAL PHILOSOPHY AND BELLES-LETTRES.

DANIEL READ, LL. D.,

PROFESSOR OF GREEK AND LATIN LANGUAGES, AND LECTURER ON DIDACTICS.

Rev. ROBERT MILLIGAN, A. M.,

PROFESSOR OF NATURAL PHILOSOPHY AND CHEMISTRY.

Rev. ELISHA BALLANTINE, A. M.,

PROFESSOR OF MATHEMATICS AND CIVIL ENGINEERING, AND TEACHER OF MODERN LANGUAGES.

Hon. JAMES HUGHES,

PROFESSOR OF LAW.

JAMES WOODBURN, A. M.,

ADJUNCT PROFESSOR OF LANGUAGES, AND PRINCIPAL OF THE PREPARATORY DEPARTMENT.

JOHN C. SMITH, A. M.,

TEACHER IN THE MODEL SCHOOL.

Reuben W. Smith,
Thomas J. Wolfe.

Total, 23

COURSE OF INSTRUCTION.

PREPARATORY DEPARTMENT.

Mitchell's Ancient and Modern Geographies,
Butler's English Grammar,
Ray's Arithmetic,
Ray's Algebras,
Wilson's American History,
Bullions' Latin and Greek Grammars,
Bullions' Latin and Greek Readers,
Cæsar's Commentaries,
Virgil,
Cicero's Orations,
Latin and Greek Exercises,
English Composition and Declamation.

FRESHMAN CLASS.

FIRST TERM.—Livy,
Græca Majora,
Grecian and Roman Antiquities, (Bojesen);
Algebra, (Davies' Bourdon),
Latin, Greek, and English Composition,
Elocution.

SECOND TERM.—Livy,
Græca Majora,
Grecian and Roman Antiquities,
Algebra, completed,
Geometry, commenced, (Davies' Legendre),
Latin, Greek, and English Composition,
Elocution.

THIRD TERM.—Horace's Odes,
Græca Majora,
Geometry, completed, (Davies' Legendre),
History,
Latin, Greek, and English Composition,
Elocution.

SOPHOMORE CLASS.

FIRST TERM.—Horace's Satires and Epistles,
Græca Majora,
Application of Algebra to Geometry,
Plain and Spherical Trigonometry, (Davies'),
Mensuration, (Davies'),
Descriptive Geometry, commenced, (Davies'),
History,
Elocution,
Latin, Greek, and English Composition.

SECOND TERM.—Horace finished,
Græca Majora,
Descriptive Geometry, finished,
Analytical Geometry, commenced, (Davies),
English Literature,
Latin, Greek, and English Composition,
Elocution.

THIRD TERM.—Terence,
Homer's Iliad or Odyssey,
Analytical Geometry,
Rhetoric, (Blair),
Latin, Greek, and English Composition,
Elocution.

JUNIOR CLASS.

FIRST TERM.—Rhetoric, (Campbell),
Elements of Criticism,
Chemistry, (Silliman),
Tacitus,
Greek Drama,
Analytical Geometry completed,
Calculus, commenced, (Davies'),
Exercises in English Composition and Declamation.

SECOND TERM.—Mental Philosophy, (Reid),
Geology, (Hitchcock),
Agricultural Chemistry,
Physiology,
Juvenal,

Greek Drama,
Calculus,
Exercises in English Composition and Declamation.

THIRD TERM.—Mechanics, commenced, (Bartlett),
Logic, (Whately),
Evidences of Christianity,
Juvenal,
Greek Drama,
Calculus, finished,
English Composition and Declamation.

SENIOR CLASS.

FIRST TERM.—Mechanics, finished,
Political Economy, (Say),
Moral Philosophy, commenced, (Stewart),
Cicero de Oratore,
Pindar,
Surveying, (Davies'),
Civil Engineering,
English Composition and Declamation.

SECOND TERM.—Moral Philosophy, completed,
International Law, (Kent),
Acoustics and Optics,
Selections from the Latin and Greek Classics,
German Language and Literature, (optional),
Hebrew Language and Literature, (optional),
English Composition and Declamation.

THIRD TERM.—Astronomy,
Constitution of the United States, (Story),
Butler's Analogy,
Selections from the Latin and Greek Classics,
French Language and Literature, (optional,)
Hebrew Language and Literature, (optional),
English Composition and Declamation.

The following studies constitute the course necessary to be completed in order to graduation to the degree of Bachelor of Science:

Mitchell's Ancient and Modern Geographies,
Butler's English Grammar,

Ray's Arithmetic,
Ray's Algebras,
Wilson's American History,
English Composition and Declamation,
Davies' Bourdon's Algebra,
Geometry, (Davies' Legendre),
Application of Algebra to Geometry,
Plane and Spherical Trigonometry, (Davies'),
Descriptive Geometry, (Davies'),
History,
Analytical Geometry, (Davies'),
English Literature,
Rhetoric,
Elements of Criticism,
Chemistry, (Silliman),
Calculus, (Davies'),
Mental Philosophy, (Reid),
Geology, (Hitchcock),
Agricultural Chemistry,
Physiology,
Mechanics, (Bartlett),
Logic, (Whately),
Evidences of Christianity,
Political Economy, (Say),
Moral Philosophy,
Surveying, (Davies'),
Civil Engineering,
International Law,
Acoustics and Optics, (Bartlett),
Astronomy,
Constitution of the United States,
Butler's Analogy.

WORKS OF REFERENCE.

Rollin's Ancient History,
Findlay's Ancient Atlas,
Gillie's Greece,
Niebuhr's History of Rome,

Gibbon's Decline and Fall of the Roman Empire,
Guizot's History of Civilization,
Hume's and Macaulay's Histories of England,
Bancroft's History of the United States,
Anthon's Classical Dictionary,
Anthon's Dictionary of Antiquities,
Walker's, Webster's, and Richardson's English Dictionaries,
Graham's Chemistry,
Knapp's Chemistry applied to the Arts,
Brande's Manual of Chemistry,
Ure's Chemical Dictionary,
Lyell's Principles of Geology,
Lyell's Manual of Geology,
Austed's Geology,
Bridgewater Treatises,
Dana's Mineralogy,
Johnston's Lectures on Agriculture,
Agassiz' and Gould's Zoology,
Wilson's Anatomy,
Carpenter's Physiology,
Dunglison's Laws of Health,
Newton's Principia,
Bowditch's Translation of the Mechanique Celeste of La Place,
Loche's, Reid's, Stewart's, Brown's and Cousin's Works on Mental and Moral Philosophy,
Josephus,
Mosheim's and Neander's Church Histories.

LECTURES.

In connection with the prescribed Text Books, lectures are delivered on History, Grecian and Roman Antiquities, Didactics, English Literature, Rhetoric, Logic, Belles Lettres, Chemistry, Geology, Physiology, Natural Philosophy, Astronomy, Mental and Moral Philosophy, International Law, and Political Economy.

MODE OF INSTRUCTION.

The recitations and examinations are conducted with a strict regard to the mental discipline of the students. The developement of the intellectual and moral faculties, the formation of correct habits of thought and study, and the communication of useful knowledge, are the three paramount objects of every recitation in all the departments of the University.

TERMS OF ADMISSION AND GRADUATION.

Students from other colleges are required to present certificates of dismission in good standing.

All candidates for admission into any of the advanced classes, must furnish satisfactory evidence that they have completed the preceding studies of the course.

No student will be admitted to the privileges of the University until he shall have presented to the President his receipt for tuition fee.

It is the design of the Faculty to maintain the highest standard of education which the state of society will admit. None are therefore permitted to graduate unless they have completed the prescribed course. Students, however, who complete the scientific and philosophic course only, receive diplomas certifying this fact.

LAW SCHOOL.

In this department the students are divided into two classes, the junior and senior.

The text books of the junior class are, Blackstone's Commentaries, Kent's Commentaries, Smith on Contracts, and Stephen on Pleading. Those of the senior class are Kent's Commentaries, Chitty on Pleading, Greenleaf on Evidence, and Mitford's Equity.

The course of instruction embraces all the branches of legal science. The classes are examined every day on their lessons in the text books; and lectures are delivered daily on the various subjects embraced in the study of jurisprudence. A moot court is held every Saturday, in which all the students are exercised in preparing pleadings and arguing legal questions and cases previously given out, on each of which an opinion is given by the presiding professor.

A good law library is provided for the use of the students, but they must furnish their own text books. Members of the junior class will not, during the first session, need the text books of the senior class.

Students who shall have attended the law school for two sessions will, in the discretion of the Law Faculty and Board of Trustees, receive diplomas. None but practising attorneys will be entitled to them in less than that time. The present session will end on the first Wednesday of April. The graduation fee is five dollars.

AGRICULTURAL DEPARTMENT.

In this department are embraced Natural Philosophy and Chemistry, both organic and inorganic, including an account of nutrition, growth, and respiration, in the vegetable and animal economy, and analyses of soils and manures, ores, marls, &c., as connected with argriculture. The course also includes Mineralogy and Geology.

ENGINEERING.

This school is connected with the Mathematical and Chemical Departments. It proposes, besides the collegiate course in Mathematics and

Natural Philosophy, to afford instruction in the theory of roads, railroads, canals, and bridges, the laws of heat and steam, theory and construction of the steam engine, and topographical surveying.

NORMAL DEPARTMENT.

This department is designed to prepare young men for the profession of teaching. The course of study prescribed for this school, in connection with a course of lectures on the Theory and Practice of Teaching, is Reading, Elocution, Writing, Linear Drawing, Mental and Written Arithmetic, Book Keeping, Geography, with outline maps and the use of the globes, English Grammar and Composition, Algebra, Geometry, Mensuration, Surveying, Natural Philosophy, Chemistry, Human Physiology, History—United States, and general—history of English Literature, Vocal Music, Didactics. Those who complete the foregoing course, and pass a creditable examination thereon, will be entitled to a certificate, or diploma, signed by the faculty.

The Model School is an experiment School, auxiliary to this department. It is intended to show the best modes of teaching, by the practical working of a well-ordered school.

DISCIPLINE.

The discipline is intended to be strictly parental, and to accomplish its effect by appealing to the better principles of the heart, avoiding, if possible severe and disgraceful punishment. If it should appear that the student is not susceptible of the influence of such discipline, he will be returned to his friends, in the hope that under other circumstances he may yet form an estimable character. Immoral, disorderly, or dishonorable conduct, habitual negligence of duty, or want of preparation, is always sufficient reason for directing a student to leave the University.

The Faculty will not, except in extraordinary cases, grant letters of dismission, or give leave of absence, until the close of the session, nor until the student applying for such letter, or for leave of absence, shall have sustained his examinations with his class.

In all cases when from any cause, a student has failed to be present at the regular examination, he shall undergo an examination before being permitted again to join the University.

The absence of a student even for a few days in term time, exerts on his progress an evil influence which is seldom fully appreciated by parents or guardians, hence no apology but that of sickness or other unavoidable accident, is sufficient to excuse a student from a regular attendance at recitation.

RELIGIOUS INSTRUCTION.

A portion of the Bible is read, and prayers are offered, every morning in the University Chapel, at the calling of the roll.

On every Lord's Day, at 3 o'olock, P. M. a lecture is delivered by the President to the students of the University, on some moral or religious subject. It is also recommended by the Faculty, that every student attend some other place of public worship on the Sabbath, according to the direction or preference of his parent or guardian.

EXPENSES.

Tuition fees are, in the college proper, eight dollars per term; in the law department, thirty dollars, and in the preparatory department, six dollars per term. In the model school, pupils are charged three dollars and fifty cents per term.

By an act of the Legislature of the State, two students from each county of the State, to be selected by the Board of County Commissioners, are admitted to any department of the University free of charge for tuition. County students are, however, charge done dollar per term for contingencies, as other students.

Students can board and lodge in private families at from $1.50 to $2.00 per week.

With regard to apparel or pocket money, it is earnestly recommended to all parents sending their children to this Institution, no matter how wealthy they may be, not to furnish them with extravagant means. The character and scholarship of students are often grievously injured by a

free indulgence in the use of money. Whatever is furnished beyond a moderate supply for ordinary expenses, exposes the student to numerous temptations, and endangers rather than increases his happiness and respectability.

As a precaution against extravagance, it is suggested that parents at a distance may deposit funds with some one residing in the vicinity of the Institution, and in whom they have confidence, who in that case may pay particular attention to the pecuniary concerns of the student, settle his bills, and correspond with the parent, transmitting an account of his expenditure.

BUILDINGS.

Notwithstanding the loss of the main edifice by fire, the friends of the University and patrons of learning, will be pleased to learn, that all the duties of the respective departments have been regularly and fully discharged without any interruption. The three remaining buildings, with the facilities kindly offered by the citizens of Bloomington, are sufficient for the present wants of the Institution. And measures are now in progress for the erection of a new, tasteful, and commodious building.

LITERARY SOCIETIES.

There are two Literary Societies, the Athenian and the Philomathean, connected with the University, nearly equal in numbers, and both in a flourishing condition. They are ornaments to the Institution, and very materially assist in the mental training and discipline of youth. Donations to these associations are respectfully solicited, that they may as soon as possible repair the losses which they sustained in the burning of the University.

The anniversary of the Athenian Society is held on the 12th of February; that of the Philomathean, on the 4th of July.

EXAMINATIONS, &c.

There are two public examinations of all the classes, in the year, at the close of the second and third terms.

Every student is required to attend three recitations or lectures a day. A faithful record of the attainments and delinquencies of each student is kept by the Professors, and transmitted to parents and guardians, as often as they may think necessary.

APPARATUS AND CABINET.

The apparatus for chemical and philosophical illustrations is respectable.

The Mineralogical Cabinet contains many valuable and interesting specimens, to which additions are frequently made. Donations to this department are respectfully solicited from the friends and patrons of natural science.

HEBREW, FRENCH, AND GERMAN.

The Hebrew, French, and German lanuguages are taught without any additional expense to the students.

The following text-books are used: Roediger's Gesenius' Hebrew Grammar, translated by T. J. Conant; Gesenius' Hebrew and English Lexicon; Van Der Hooght's Hebrew Bible, revised by Hahn, Leeser, and Jaquett; Levisac's French Grammar; Surenne's French Dictionaries; Adler's Progressive Reader; Adler's Dictionary.

GENERAL COLLEGE CALENDAR.

The college year is divided into three terms. The first term begins seven weeks after the first Wednesday of August, and ends on the twenty-fourth of December.

The second term begins on the second of January, unless that day fall on Sunday, in which case it begins on the third of the month, and ends on the first Wednesday of April.

The third term begins four weeks after the first Wednesday in April, and ends on the first Wednesday of August, the day of Commencement.

COLLEGE CALENDAR, 1854-5.

The day of commencement this year, is the second of August.

The first term begins Thursday, September 21st, 1854, and ends Saturday, December 24th, 1854.

The second term begins Tuesday, January 2d, 1855, and ends Wednesday, April 4th, 1855.

The third term begins Thursday, May 3, 1855, and ends Wednesday, August 1st, 1855.

SITE.

The village of Bloomington, the seat of the University, is pleasantly situated on the New Albany and Salem Railroad, in an elevated and well watered limestone region. It is easy of access in all directions; and in point of morals, cheapness of living, and healthy climate, it is favorably located for the purposes of education. The population, consisting of about two thousand persons, is moral and intelligent, and well calculated to exert a salutary influence on the youth who resort to the University.

NOTICES.

The examination of the classes will take place on the 27th, 28th, 29th, and 31st of July.

The Board of Trustees will meet on Saturday the 29th of July, in the morning.

The Alumni of the University will meet for the purpose of forming an Association, on Tuesday the first day of August.

The Address to the Alumni will be delivered on Tuesday, August 1st, by Hon. Wm. K. Edwards, of Terre Haute.

The Annual Address before the Athenian Society will be delivered on Tuesday evening, August 1st, by Rev. E. W. Sehon, D.D., of Louisville, Kentucky.

The Annual Address before the Philomathean Society will be delivered on Monday evening, by ——— ———.

The Inauguration of the President will take place on Wednesday, at 10 o'clock A. M., August 2d.

The Commencement Exercises will begin on the same day, at 2 o'clock, P. M.

SPHERE AND OBJECT OF THE UNIVERSITY.

It is believed that our University, under its present organization, including the provision authorizing two students from each county to receive instruction free of charge, greatly facilities the obtaining of a classical education by young men whose parents are in moderate or even indigent circumstances. It is a common, but a very incorrect opinion, that colleges are institutions for the rich alone. It may be of comparatively little moment to our wealthy citizens whether there be a college in Indiana at all, and what its character may be. They have the means of sending their children to Universities in other States or in Europe. It has been estimated that, even with the number of colleges now in our State, upwards of one hundred young men, sons of our citizens, are now pursuing their collegiate studies without its limits; and if the number of colleges in the State were lessened, the number of non-resident students would be proportionably increased. In that case, too, many who now obtain a collegiate education, would be deprived of its advantages. The larger portion of students in our University are aspiring young men from the middle, and even from the very humble walks of life; many of them having, by their own efforts, procured the means of their education, and not a few of them, for the sake of learning, denying themselves, what most would consider the necessaries of life.

The best and wisest men our country ever produced, have favored the establishment of institutions of classical learning. Washington endowed a college with lands, the proceeds of which yield a larger revenue than that of the Indiana University. Jefferson gave the last seventeen years of his life to founding the Virginia University, and desired no other

memorial with posterity than as the Author of the Declaration of Independence and the Father of the University of Virginia. Franklin, the practical and the self-taught, was the founder of the University of Pennsylvania. The framers of our former Constitution united, in the same scheme of instruction, common schools and a State University. And, in truth, common schools and colleges go together. They are mutual friends and helpers. They flourish in the same soil. They harmonize in the same system. The common school furnishes to the younger classes of the University, well-trained scholars. The University, in return, elevates the general standard of teaching, and qualifications of teachers; and, especially where a normal department is established, supplies well-trained teachers to the common school.

In conclusion, the Board remark that the institution which has been placed in their charge has no rivalry with other institutions in the State. She sends kind and cordial greeting to every other seminary of sound learning belonging to whatever party or sect. There is room for all and work for all. But for herself, standing alone, the one only institution of similar grade in the State, placed outside the pale of all sectarian or other restrictive influence, she commends herself to a wise and liberal policy from the General Assembly, and to the fostering care and patronage of the whole people of Indiana.

By order of the Board, respectfully submitted.

JOHN I. MORRISON.
President of the Board of Trustees
Indiana University.

CLASS IN DIDACTICS.

The following students constitute the Class in the Theory and Practice of Teaching. Those whose names are marked with an asterisk have been teachers of schools or academies.

Henry W. Ballantine,
Caswell R. Burton,
Lycurgus A. Duncan,
*Wiley G. Hastings,
Joseph A. W. Hostetler,
*Richard M. Johnson,
*H. S. McRae,
Gholson A Moore,
Uriah Mulliken,
*Arthur Parke,
*Isaac N. Porch,
*Hiram D. Riddle,
*Jacob V. Wolfe,
*Brazzilai M. Blount,
*William A. Burton,
*Levi Hanson,
Ebenezer Henderson,
*D. Eckley Hunter,
Wesley Johnson,
*J. Wright McRae,
*Calvin C. Morrical,
William H. O'Neal,
John D. Pering,
James Reed,
Andrew F. Wise.

Total.....25

COURSE OF INSTRUCTION.

PREPARATORY DEPARTMENT.

Mitchell's Ancient and Modern Geographies,
Butler's English Grammar,
Ray's Arithmetic,
Ray's Algebras,
Wilson's American History,
Bullion's Latin and Greek Grammars,
Bullion's Latin and Greek Readers,
Cæsar's Commentaries,
Virgil,
Cicero's Orations,
Latin and Greek Exercises,
English Composition and Declamation

FRESHMAN CLASS.

FIRST TERM.—Livy,
Græca Majora,
Grecian and Roman Antiquities (Bojesen),
Algebra (Davies' Bourdon),
Latin, Greek, and English Composition,
Elocution.

SECOND TERM.—Livy,
Græca Majora,
Grecian and Roman Antiquities,
Algebra, completed,
Geometry, commenced (Davies' Legendre),
Latin, Greek, and English Composition,
Elocution.

THIRD TERM.—Horace's Odes,

Græca Majora,
Geometry, completed (Davies' Legendre),
History,
Latin, Greek, and English Composition,
Elocution.

SOPHOMORE CLASS.

FIRST TERM.—Horace's Satires and Epistles,
Græca Majora,
Application of Algebra to Geometry,
Plain and Spherical Trigonometry (Davies'),
Mensuration (Davies'),
Descriptive Geometry, commenced (Davies'),
History,
Elocution,
Latin, Greek, and English Composition.

SECOND TERM.—Horace, finished,
Græca Majora,
Descriptive Geometry,
Surveying (Davies'),
Analytical Geometry, commenced (Davies'),
English Literature,
Latin, Greek, and English Composition,
Elocution

THIRD TERM.—Terence,
Homer's Iliad or Odyssey,
Analytical Geometry,
Rhetoric (Blair),
Latin, Greek, and English Composition,
Elocution.

JUNIOR CLASS.

FIRST TERM.—Rhetoric (Campbell),
Elements of Criticism,
Chemistry (Silliman),
Tacitus,
Greek Drama,
Analytical Geometry completed,
Calculus, commenced (Davies'),
Exercises in English Composition and Declamation.

SECOND TERM.—Mental Philosophy (Reid),
Mechanics, commenced,
Agricultural Chemistry,
Juvenal,

Greek Drama,
Calculus,
Exercises in English Composition and Declamation.

THIRD TERM.—Mechanics, completed,
Logic (Whately),
Evidences of Christianity,
Juvenal,
Greek Drama,
Calculus, finished,
English Composition and Declamation.

SENIOR CLASS.

FIRST TERM.—Astronomy,
Political Economy (Say),
Moral Philosophy, commenced (Stewart),
Cicero de Oratore,
Pindar,
Civil Engineering,
English Composition and Declamation.

SECOND TERM.—Moral Philosophy, completed,
International Law (Kent),
Geology,
Physiology,
Selections from the Latin and Greek Classics,
German Language and Literature (optional),
Hebrew Language and Literature (optional),
English Composition and Declamation.

THIRD TERM.—Acoustics and Optics,
Constitution of the United States (Story),
Butler's Analogy,
Selections from the Latin and Greek Classics,
French Language and Literature (optional),
Hebrew Language and Literature (optional),
English Composition and Declamation.

SCIENTIFIC COURSE.

The following studies constitute the course necessary to be completed in order to graduation to the degree of Bachelor of Science:

Mitchell's Ancient and Modern Geographies,
Butler's English Grammar,
Ray's Arithmetic,
Ray's Algebras,
Wilson's American History,
English Composition and Declamation,
Davies' Bourdon's Algebra,
Geometry (Davies' Legendre),
Application of Algebra to Geometry,
Plane and Spherical Trigonometry (Davies'),
Descriptive Geometry (Davies'),
History,
Analytical Geometry (Davies'),
English Literature,
Rhetoric,
Elements of Criticism,
Chemistry (Silliman),
Calculus (Davies'),
Mental Philosophy (Reid),
Geology (Hitchcock),
Agricultural Chemistry,
Physiology,
Mechanics (Bartlett),
Logic (Whately),
Evidences of Christianity,
Political Economy (Say),
Moral Philosophy,
Surveying (Davies'),
Civil Engineering,
International Law,
Acoustics and Optics (Bartlett),
Astronomy,
Constitution of the United States,
Butler's Analogy.

WORKS OF REFERENCE.

Rollin's Ancient History,
Findlay's Ancient Atlas,
Gillie's Greece,
Niebuhr's History of Rome,
Gibbon's Decline and Fall of the Roman Empire,
Guizot's History of Civilization,
Hume's and Macaulay's Histories of England,
Bancroft's History of the United States,
Anthon's Classical Dictionary,
Anthon's Dictionary of Antiquities,
Webster's and Richardson's English Dictionaries,
Knapp's Chemistry applied to the Arts,
Ure's Chemical Dictionary,
Lyell's Principles of Geology,
Bridgewater Treatises,
Johnston's Lectures on Agriculture,
Carpenter's Physiology,
Dunglison's Laws of Health,
Newton's Principia,
Bowditch's Translation of the Mechanique Celeste of La Place,
Locke's, Reid's, Stewart's, Brown's, Cousin's, and Hamilton's
Works on Mental and Moral Philosophy,
Josephus,
Mosheim's and Neander's Church Histories.

Lectures.

In connection with the prescribed Text Books, lectures are delivered on History, Grecian and Roman Antiquities, Didactics, English Literature, Rhetoric, Logic, Belles Lettres, Chemistry, Geology, Physiology, Natural Philosophy, Astronomy, Mental and Moral Philosophy, International Law, and Political Economy.

Mode of Instruction.

The recitations and examinations are conducted with a strict regard to the mental discipline of the students. The development of the intellectual and moral faculties, the formation of correct habits of thought and study, and the communication of useful knowledge, are the three paramount objects of every recitation, in all the departments of the University.

Admission.

1. All candidates for admission into the Preparatory Department must be at least twelve years of age. They will be examined, and must prove themselves able to write a legible hand, to spell with correctness English words in common use, and to read plain English prose with ease and intelligibleness.

2. All applicants who wish to enter the Preparatory Department are required to present themselves for examination on the first day of the term.

3. All candidates for admission into any of the advanced classes must furnish satisfactory evidence that they have completed the preceding studies of the course, or submit to an examination upon them before the Faculty.

4. Undergraduates, coming from other institutions of learning, are required to bring letters of honorable dismission.

5. Before being admitted to a recitation each student will procure a *Quietus* from the Secretary of the Board, showing that his term-bills have been paid to the Treasurer, and present it to the President.

6. Whenever the further connection of any student with the University shall be deemed by the Faculty undesirable, on account of particular misdemeanor, or of general neglect of duty, and disregard of regulations, such student may be privately or publicly dismissed; and in every case the reason for dismission shall be given.

Studies and Recitations.

1. Students will pursue the studies of the classes to which they are assigned, unless exempted for special reasons.

2. No student will take a study to which he has not been assigned, nor discontinue a study, without permission obtained from the Faculty.

3. Permission to be absent from a recitation must, if practicable, be obtained of the Professor, beforehand; if not thus obtained, excuse must be rendered as soon after as possible.

4. Every student is required to attend three recitations or lectures a day, and a faithful record of the attainments and delinquencies of each student is kept by the Professors, and transmitted to parents and guardians as often as they may think necessary.

Examinations.

1. At the close of each term there is a public examination of all the classes in the University, and each member of the class is required to be present.

2. In all cases, when from any cause a student has failed to be present at the regular examination, he shall undergo an examination before being permitted again to join the University.

Law Department.

The course of instruction in the Law Department begins, annually, on the rst Monday in December, and continues for a term of three months. The udents are divided into two classes: the Junior and Senior.

TEXT BOOKS OF THE JUNIOR CLASS.

Blackstone's Commentaries (select chapters); Kent's Commentaries (select apters); Smith on Contracts; Stephens on Pleading.

TEXT BOOKS OF THE SENIOR CLASS.

Kent's Commentaries (select chapters); Greenleaf on Evidence; Adams' uity; Mitford's Equity Pleading; Indiana Revised Statutes of 1852 lections with reference to practice in the State Courts, in Civil and Crimi- l cases).

Both classes will, as far as practicable, pursue a parallel course of reading, der the direction of the Professor.

There will be a MOOT COURT, every Saturday during the session, in which students of both classes will be exercised in the preparation of pleadings, es of practice, discussion of legal questions, &c.

Students are graduated after an attendance of not less than two sessions in Law School, when found proficient by the Faculty of the University.

Candidates for graduation will be required to undergo a public examination, t such other exercises as the Faculty may appoint.

The classes will have access to a good Law Library, for purposes of refer- e, but each student must provide his own text books.

The Codes of Procedure and Rules of Practice introduced by recent legis- on, will have a prominent place in the course of instruction; while suffi- nt attention will be given to Common Law forms and principles to qualify student for practice in those States where they obtain.

The tuition fee is Thirty Dollars, payable in advance. Graduation fee, e Dollars. Good boarding can be had, in private families, at about Two llars and a half per week, exclusive of fuel and lights.

aw students will be allowed to attend lectures and recitations in the versity classes, free of charge.

The Board of Trustees have decided that county students are not entitled ne benefit of free tuition in the Law School.

Normal Department.

This department is designed to prepare young men for the profession of teaching. Through it, the University designs to afford its aid in carrying forward the great scheme of public education, thus making itself an ally of the general school system of the State.

Lectures are given embracing the following subjects: education, its nature and design; physical education; intellectual education; moral education; æsthetical education; the history of education; an examination of the powers of the mind, especially with reference to receiving and communicating knowledge; school house architecture, including school furniture, grounds, &c.; organization and classification of schools; graded schools; the proper incentives for the school; rewards and punishments; modes of teaching different subjects; the office of teacher: his duties to himself, his school, and the public; duty of the State, in reference to educating its citizens; the educational policy of Indiana.

It is intended, in this course of lectures, to present, as nearly as may be, the whole duty of the teacher, and to point out such modes of school discipline and management as shall assist the young teacher in preparing for his great work. The members of this department are also required to write on various topics connected with education, and to discuss, in form of debate, such subjects as may be assigned by the professor.

As auxiliary to the training of the Normal Class, the Board of Trustees have fitted up a room in one of the college buildings, and established a *model school*, under a teacher who has been trained in a Normal School, in order to present to the eye of the learner a common school, as nearly perfect as possible, in its order, arrangement, and modes of teaching; and also as a school of practice, in which to exercise and test the young teacher's ability and tact.

The course of lectures on the theory and practice of teaching commences on the first day of May, and continues during the summer term of the University. The student designing to qualify himself for teaching is, however, permitted to pursue any of the studies of the literary or scientific course, and may with profit enter the University at the opening of any term, as may suit his convenience.

In addition to the course of lectures on didactics, the student must pass an examination on the following subjects, in order to entitle him to a diploma from the University, as a qualified professional teacher, viz.: reading, writing, linear drawing, mental and written arithmetic, book-keeping, geography, with outline maps, and the use of the globes, English grammar and composition, algebra, geometry, mensuration, surveying, natural philosophy, chemistry, human physiology, history, United States and general, history of English literature, Constitution of the United States and of Indiana, and vocal music.

Agricultural Department.

In this department are embraced Natural Philosophy and Chemistry, both organic and inorganic, including an account of nutrition, growth, and respiration, in the vegetable and animal economy, and analyses of soils and manures, ores, marls, &c., as connected with agriculture. The course also includes Geology.

Engineering.

This school is connected with the Mathematical and Chemical Departments. It proposes, besides the collegiate course in Mathematics and Natural Philosophy, to afford instruction in the theory of roads, railroads, canals, and bridges, the laws of heat and steam, theory and construction of the steam engine, and topographical surveying.

Discipline.

The discipline of the Indiana University is intended to be strictly *parental*, and to accomplish its effect by appealing to the better principles of the heart, avoiding, if possible, severe and disgraceful punishment. It is designed to be *preventive*, rather than *penal*. But, if it should appear that the student is not susceptible of the influence of such discipline, he will be returned to his friends, in the hope that under other circumstances he may yet form an estimable character.

Immoral, disorderly, or dishonorable conduct, habitual negligence of duty, or want of preparation, is always sufficient reason for directing a student to leave the University.

The Faculty will not, except in extraordinary cases, grant letters of dismission, or give leave of absence, until the close of the session, nor until the student applying for such letter, or for leave of absence, shall have sustained his examination with his class.

The absence of a student, even for a few days, in term-time, exerts on his progress an evil influence, which is seldom fully appreciated by parents or guardians; hence no apology but that of sickness, or other unavoidable accident, is sufficient to excuse a student from a regular attendance at recitation.

As *teachers* and *scholars* come together in a University with objects and interests which are identical, we hold that they should always regard themselves as *co-workers* and *endeared friends*.

It is our cherished desire that the *Faculty* and *students* of this University should *always*, as at present, constitute an undivided, harmonious *family*, among whom the feelings most appropriate to *parents* and *children* shall constitute the paramount and characteristic relation.

Our system of government may be understood by its name: "*The Parental.*"

Religious Services.

1. The duties of each day during term-time will commence with religious services, consisting of reading a portion of Holy Scriptures, and prayer, which all are required to attend.

2. Every Sabbath, at 3 o'clock, P. M., a lecture on some moral or religious subject will be delivered by the PRESIDENT, in the University Chapel; and it is expected that all the students will attend.

It is also recommended by the Faculty that every student attend some other place of public worship on Sabbath morning, according to the direction or preference of his parent or guardian.

3. At all Chapel exercises students are expected to be in their seats when the bell stops tolling.

Graduation and Degrees.

It is the design of the Faculty to maintain the highest standard of education which the state of society will admit. Therefore, none are permitted to graduate unless they have completed the prescribed course. However, students who complete the scientific and philosophical course only, receive diplomas certifying this fact.

The degree of Bachelor of Arts, in accordance with general usage, will be conferred on students who complete the Classical Course, and pass the examination in the same.

The degree of Bachelor of Sciences will be conferred on students who complete the Scientific Course, and pass the examinations in the same. This title, borrowed from the French colleges, has already been introduced into the Lawrence Scientific School, of Harvard, to mark the graduation of a similar class of students.

The degree of Master of Arts will not be conferred in course upon graduates of three years standing, but only on such graduates as have pursued professional or general scientific studies during that period.

Expenses.

Tuition fees are, in the college proper, eight dollars per term; in the law department, thirty dollars, and in the preparatory department, six dollars per term. In the model school, pupils are charged three dollars and fifty cents per term.

By an act of the Legislature of the State, two students from each county of the State, to be selected by the Board of County Commissioners, are admitted to any department of the University free of charge for tuition. County students are, however, charged one dollar per term for contingencies, as other students.

Students can board and lodge in private families at from $1 50 to $2 00 per week.

With regard to apparel or pocket money, it is earnestly recommended to all parents sending their children to this Institution, no matter how wealthy they may be, not to furnish them with extravagant means. The character and scholarship of students are often greviously injured by a free indulgence in the use of money. Whatever is furnished beyond a moderate supply for ordinary expenses, exposes the student to numerous temptations, and endangers rather than increases his happiness and respectability.

As a precaution against extravagance, it is suggested that parents at a distance may deposit funds with some one residing in the vicinity of the Institution, and in whom they have confidence, who in that case may pay particular attention to the pecuniary concerns of the student, settle his bills, and correspond with the parent, transmitting an account of his expenditure.

Literary Societies.

There are two Literary Societies, the Athenian and the Philomathean, connected with the University, nearly equal in numbers, and both in a flourishing condition. They are ornaments to the Institution, and very materially assist in the mental training and discipline of youth. Donations to these associations are respectfully solicited, that they may as soon as possible repair the losses which they sustained in the burning of the University.

The anniversary of the Athenian Society is held on the 12th of February; that of the Philomathean, on the 4th of July.

Apparatus and Cabinet.

The apparatus for chemical and philosophical illustrations is respectable.

The Mineralogical Cabinet contains many valuable and interesting specimens, to which additions are frequently made. Donations to this Department are respectfully solicited from the friends and patrons of natural science.

Hebrew, French, and German.

The Hebrew, French, and German languages are taught without any additional expense to the students.

The following text-books are used: Roediger's Gesenius' Hebrew Grammar, translated by T. J. Conant; Gesenius' Hebrew and English Lexicon; Van Der Hooght's Hebrew Bible, revised by Hahn, Leeser, and Jaquett; Levisac's French Grammar; Surenne's French Dictionaries; Adler's Progressive Reader; dler's Dictionary.

General College Calendar.

The college year is divided into three terms. The first term begins seven weeks after the first Wednesday of August, and ends on the twenty-fourth of December.

The second term begins on the second of January, unless that day fall on Sunday, in which case it begins on the third of the month, and ends on the first Wednesday of April.

The third term begins four weeks after the first Wednesday in April, and ends on the first Wednesday of August, the day of Commencement.

College Calendar, 1855-6.

The day of Commencement this year, is the first of August.

The first term begins Thursday, September 20th, 1855, and ends Monday, December 24th, 1855.

The second term begins Wednesday, January 2d, 1856, and ends Wednesday, April 2d, 1856.

The third term begins Thursday, May 1st, 1856, and ends August 6th, 1856.

Notices.

The examination of the classes will take place on the 26th, 27th, 28th, and 30th of July.

The Board of Trustees will meet on Saturday the 28th of July, at 9 o'clock, A. M.

The BACCALAUREATE will be delivered to the Senior Class by the PRESIDENT, on Sunday, the 29th of July, at 3 o'clock, P. M.

The Annual Address before the Philomathean Society will be delivered on Monday the 30th of July, in the evening, by Rev. WM. P. STRICKLAND, D. D., of Cincinnati, Ohio.

The Annual Address before the "Society of the Alumni," will be delivered on Tuesday, the 31st of July, at 10 o'clock, A. M., by JOHN O. BULLOCK, Esq., of Louisville, Kentucky.

Rev. SIDNEY DYER, A. M., of Indianapolis, will deliver a POEM before the Athenian Society, on Tuesday afternoon.

The Annual Address before the Athenian Society will be delivered on Tuesday evening, the 31st of July, by Hon. JOHN B. NILES, A. M., of Laporte, Indiana.

The COMMENCEMENT exercises will begin on Wednesday, at 10 o'clock, A. M., August 1st.

Sphere and Object of the University.

It is believed that our University, under its present organization, including the provision authorizing two students from each county to receive instruction free of charge, greatly facilitates the obtaining of a classical education by young men whose parents are in moderate or even indigent circumstances. It is a common, but a very incorrect opinion, that colleges are institutions for the rich alone. It may be of comparatively little moment to our wealthy citizens whether there be a college in Indiana at all, and what its character may be. They have the means of sending their children to Universities in other States or in Europe. It has been estimated that, even with the number of colleges now in our State, upwards of one hundred young men, sons of our citizens, are now pursuing their collegiate studies without its limits; and if the number of colleges in the State were lessened, the number of non-resident students would be proportionably increased. In that case, too, many who now obtain a collegiate education, would be deprived of its advantages. The larger portion of students in our University are aspiring young men from the middle, and even from the very humble walks of life; many of them having, by their own efforts, procured the means of their education, and not a few of them, for the sake of learning, denying themselves what most would consider the necessaries of life.

The best and wisest men our country ever produced, have favored the establishment of institutions of classical learning. Washington endowed a college with lands, the proceeds of which yield a larger revenue than that of the Indiana University. Jefferson gave the last seventeen years of his life to founding the Virginia University, and desired no other memorial with posterity than as the Author of the Declaration of Independence and the Father of the University of Virginia. Franklin, the practical and the self-taught, was the founder of the University of Pennsylvania. The framers of our former Constitution united, in the same scheme of instruction, common schools and a State University. And, in truth, common schools and colleges go together. They are mutual friends and helpers. They flourish in the same soil. They harmonize in the same system. The common school furnishes to the younger classes of the University, well-trained scholars. The University, in return, elevates the general standard of teaching and qualifications of teachers, and, especially where a normal department is established, supplies well-trained teachers to the common school.

In conclusion, the Board remark that the institution which has been placed in their charge has no rivalry with other institutions in the State. She sends kind and cordial greeting to every other seminary of sound learning belonging to whatever party or sect. There is room for all and work for all. But for herself, standing alone, the one only institution of similar grade in the State, placed outside the pale of all sectarian or other restrictive influence, she commends herself to a wise and liberal policy from the General Assembly, and to the fostering care and patronage of the whole people of Indiana.

New Building.

The new University Building is in the collegiate gothic style—simply and truly carried out. The exterior of closely set brick work, the openings of doors and windows on principal front having cut stone dressings, the quoins and gable copings, string and base courses of same material (a beautiful cream-colored limestone found in great abundance on the ground). The length of front is 145 feet. The building consists of a centre main building, 69 feet by 53 feet, and three stories high, gabled and surmounted by a bell turret at about 80 feet high. The chapel 66 by 50, society rooms, committee rooms, and professor's room, main hall and passages of communication to the wings, are in the centre building.

The wings each about 38 feet by 26, also three stories high, but lower than the centre—with intermediate spaces or side halls in which are placed stairs (to approach the chapel from either side); the library, museum, recitation rooms, law lecture room, law library, President's rooms, &c., &c., in the wings. Under one wing where the ground falls considerably, a laboratory may be had, or it may be used as a hot air room, fuel, stores, &c.

The site of the building is central across the line of the principal street, leading from the court house square, and with one end to the railroad, so that both fronts of the building and one end (in all of which the character is preserved) may be seen from the cars as they pass.

Site.

The village of Bloomington, the seat of the University, is pleasantly situated on the New Albany and Salem Railroad, in an elevated and well watered limestone region. It is easy of access in all directions; and in point of morals, cheapness of living, and healthy climate, it is favorably located for the purposes of education. The population, consisting of about two thousand persons, is moral and intelligent, and well calculated to exert a salutary influence on the youth who resort to the University.

Condition and Prospects.

It is known to the public that the Indiana University has suffered a series of calamities unparalleled in the history of any literary institution in the country. By a judicial decision, nearly its whole endowment was swept away. Its principal edifice and libraries were consumed by fire. Not only was its prosperity retarded, but its very existence rendered uncertain by these disasters.

Equally remarkable have been the interpositions in its behalf. The Congress of the United States made it a donation of a township of land. The State Legislature, with a noble munificence, at its late session, granted indemnity for all losses sustained by adverse judicial decisions. Its funds are thus rendered more and more ample and secure than heretofore. A new edifice, in addition to those now on the College grounds, and far more commodious and beautiful than the one destroyed, is already erected, and in rapid progress of completion. Every important and agitating question affecting the interests of the University has been fully and finally settled. The institution is placed in a stable and permanent condition. If it was possible to retain the officers and students, and mantain a respectable rank, when it seemed that each College session would be the last, it surely is not unreasonable to anticipate a great increase of usefulness and prosperity, now that all causes of apprehension and distraction are removed, and the University is left free and unembarassed in its appropriate work.

By order of the Board, respectfully submitted.

JOHN I. MORRISON,
President of the Board of Trustees
Indiana University.

June 20th, 1855.

To His Excellency, Ashbel P. Willard,

Governor of the State of Indiana:

Sir:—The Board of Trustees of Indiana University present the following as their Annual Report for the Academic year, ending August 5th, 1857.

Respectfully,

WM. K. EDWARDS,

President of the Board.

VISITORS.

EX-OFFICIO.

His Excellency ASHBEL P. WILLARD, *Governor of the State.*
Hon. A. A. HAMMOND, *Lieutenant Governor.*
Hon. BALLARD SMITH, *Speaker of the House of Representatives.*
Hon. S. E. PERKINS, *Judge of the Supreme Court.*
Hon. WM. Z. STUART, *Judge of the Supreme Court.*
Hon. A. DAVISON, *Judge of the Supreme Court.*
Hon. S. B. GOOKINS, *Judge of the Supreme Court.*
Prof. WM. C. LARRABEE, LL. D., *Superintendent of Public Instruction.*

BOARD OF TRUSTEES.

WM. K. EDWARDS, *of Vigo County.*
JOHNSON McCULLOUGH, Esq., *of Monroe County.*
Col. J. R. M. BRYANT, *of Warren County.*
Col. WM. M. FRENCH, *of Clark County.*
Col. SAMUEL C. WILLSON, *of Montgomery County.*
Rev. P. J. R. MURPHY, *of Martin County.*
Hon. JOHN L. ROBINSON, *of Rush County.*
Hon. JAMES HUGHES, *of Monroe County.*

OFFICERS OF THE BOARD.

WM. K. EDWARDS, PRESIDENT.
Hon. WM. C. TARKINGTON, TREASURER.
M. W. HELTON, Esq., SECRETARY.

FACULTY.

Rev. WILLIAM M. DAILY, D. D., LL. D.,
PRESIDENT,
AND PROFESSOR OF MENTAL AND MORAL PHILOSOPHY, AND BELLE-LETTERS.

Rev. THEOPHILUS A. WYLIE, A. M.,
PROFESSOR OF NATURAL PHILOSOPHY AND CHEMISTRY.

Rev. ELISHA BALLANTINE, A. M.,
PROFESSOR OF GREEK AND LATIN LANGUAGES, AND LITERATURE.

DANIEL KIRKWOOD, LL. D.,
PROFESSOR OF MATHEMATICS AND CIVIL ENGINEERING.

Hon. JAMES R. M. BRYANT,
PROFESSOR OF LAW.

JAMES WOODBURN, A. M.,
ADJUNCT PROFESSOR OF LANGUAGES, AND PRINCIPAL OF THE PREPARATORY DEPARTMENT.

HIRAM D. RIDDILE,
TEACHER IN THE MODEL SCHOOL.

COURSE OF INSTRUCTION.

PREPARATORY DEPARTMENT.

Mitchell's Ancient and Modern Geographies,
Butler's English Grammar,
Ray's Arithmetic,
Algebra—(Davies' First Lessons,)
Wilson's American History,
Bullion's Latin and Greek Grammars,
Bullion's Latin and Greek Readers,
Cæsar's Commentaries,
Virgil,
Cicero's Orations,
Latin and Greek Exercises,
English Composition and Declamation.

FRESHMAN CLASS.

FIRST TERM.—Livy,
Græca Majora,
Grecian and Roman Antiquities (Bojesen,)
Algebra, (Davies' Bourdon,)
Latin, Greek and English Composition,
Elocution.

SECOND TERM.—Livy,
Græca Majora.
Grecian and Roman Antiquities,
Algebra, completed,
Geometry, commenced (Davies' Legendre,)
Latin, Greek and English Composition,
Elocution.

THIRD TERM.—Horace's Odes,
Græca Majora,

Geometry, completed (Davies' Legendre,)
History,
Latin, Greek and English Composition,
Elocution.

SOPHOMORE CLASS.

FIRST TERM.—Horace's Satires and Epistles,
Græca Majora,
Application of Algebra to Geometry,
Plain and Spherical Trigonometry (Davies',)
Mensuration, (Davies',)
Descriptive Geometry, commenced, (Davies',)
History,
Elocution,
Latin, Greek and English Composition.

SECOND TERM.—Horace, finished.
Græca Majora,
Descriptive Geometry,
Surveying, (Davies',)
Analytical Geometry, commenced, (Davies',)
English Literature,
Latin, Greek and English Composition,
Elocution.

THIRD TERM.—Terence,
Homer's Iliad or Odyssey,
Analytical Geometry,
Rhetoric, (Blair,)
Latin, Greek and English Composition,
Elocution.

JUNIOR CLASS.

FIRST TERM.—Rhetoric, (Campbell,)
Elements of Criticism,
Chemistry, (Silliman,)
Tacitus,
Greek Drama,
Analytical Geometry completed,
Calculus, commenced, (Davies',)
Exercises in English Composition and Declamation.

SECOND TERM.—Mental Philosophy, (Reid,)
Mechanics, (Bartlett,) commenced,
Agricultural Chemistry,
Juvenal,
Greek Drama,
Calculus,
Exercises in English Composition and Declamation.

THIRD TERM.—Mechanics, completed,
Logic, (Whately,)
Juvenal,
Greek Drama,
Calculus, finished,
English Composition and Declamation.

SENIOR CLASS.

FIRST TERM.—Geology, (St. John,)
Physiology.
Political Economy, (Say,)
Evidences of Christianity,
Cicero de Oratore,
Pindar,
Civil Engineering,
English Composition and Declamation.

SECOND TERM.—Moral Philosophy, (Stewart,)
International Law, (Kent,)
Acoustics and Optics, (Bartlett,)
Selections from the Latin and Greek Classics,
German Language and Literature, (optional,)
Hebrew Language and Literature, (optional,)
English Composition and Declamation.

THIRD TERM.—Astronomy,
Constitution of the United States, (Story,)
Butler's Analogy,
Selections from the Latin and Greek Classics,
French Language and Literature, (optional,)
Hebrew Language and Literature, (optional,)
English Composition and Declamation.

SCIENTIFIC COURSE.

The following studies constitute the course necessary to be completed n order to graduation to the degree of Bachelor of Science:

Mitchell's Ancient and Modern Geographies,
Butler's English Grammar,
Ray's Arithmetic,
Algebra, (Davies' First Lessons,)
Wilson's American History,
English Composition and Declamation,
Davies' Bourdon's Algebra,
Geometry, (Davies' Legendre,)
Application of Algebra to Geometry,
Plane and Spherical Trigonometry, (Davies',)
Descriptive Geometry, (Davies',)
History,
Analytical Geometry, (Davies',)
English Literature,
Rhetoric,
Elements of Criticism,
Chemistry, (Silliman,)
Calculus, (Davies',)
Mental Philosophy, (Reid,)
Geology, (St. John,)
Agricultural Chemistry,
Physiology,
Mechanics, (Bartlett,)
Logic, (Whately,)
Evidences of Christianity,
Political Economy, (Say,)
Moral Philosophy,
Surveying, (Davies',)
Civil Engineering,
International Law,
Acoustics and Optics, (Bartlett,)
Astronomy,
Constitution of the United States,
Butler's Analogy.

LECTURES.

In connection with the prescribed Text Books, lectures are delivered on History, Grecian and Roman Antiquities, Didactics, English Literature, Rhetoric, Logic, Belles Letters, Chemistry, Geology, Physiology, Natural Philosophy, Astronomy, Mental and Moral Philosophy, International Law, and Political Economy.

Mode of Instruction.

The recitations and examinations are conducted with a strict regard to the mental discipline of the students. The development of the intellectual and moral faculties, the formation of correct habits of thought and study, and the communication of useful knowledge, are the three paramount objects of every recitation, in all the departments of the University.

Admission.

1. All candidates for admission into the Preparatory Department must be at least twelve years of age. They will be examined, and must prove themselves able to write a legible hand, to spell with correctness English words in common use, and to read plain English prose with ease and intelligibleness.

2. All applicants who wish to enter the Preparatory Department are required to present themselves for examination on the first day of the term.

3. All candidates for admission into any of the advanced classes must furnish satisfactory evidence that they have completed the preceding studies of the course, or submit to an examination upon them before the Faculty.

4. Undergraduates, coming from other institutions of learning, are required to bring letters of honorable dismission.

5. Before being admitted to a recitation each student will procure a

Quietus from the Secretary of the Board, showing that his term-bills have been paid to the Treasurer, and present it to the President.

6. Two students from each county in this State, to be selected by the Board of County Commissioners, are entitled to tuition, free of charge, in the departments of the University.

7. Whenever the further connection of any student with the University shall be deemed by the Faculty undesirable, on account of particular misdemeanor, or of general neglect of duty, and disregard of regulations, such student may be privately or publicly dismissed: and in every case the reasons for dismission shall be given.

Studies and Recitations.

1. Students will pursue the studies of the classes to which they are assigned, unless exempted for special reasons.

2. No student will take a study to which he has not been assigned, nor discontinue a study, without permission obtained from the Faculty.

3. Permission to be absent from a recitation must, if practicable, be obtained of the Professor, beforehand; if not thus obtained, excuse must be rendered as soon after as possible.

4. Every student is required to attend three recitations or lectures a day; and a faithful record of the attainments and delinquencies of each student is kept by the Professors, and transmitted to parents and guardians as often as they may think necessary.

Examinations.

1. At the close of each term there is a public examination of all the classes in the University, and each member of the class is required to be present.

2. In all cases, when from any cause, a student has failed to be present at the regular examination, he shall undergo an examination before being permitted again to join the University.

LAW DEPARTMENT.

The course of instruction in the Law Department begins, annually, on the first Monday in December, and continues for a term of three months. The students are divided into two classes; the Junior and Senior.

TEXT BOOKS OF THE JUNIOR CLASS.

Blackstone's Commentaries, (select chapters;) Kent's Commentaries, (select chapters;) Smith on contracts; Stephens on Pleading.

TEXT BOOKS OF THE SENIOR CLASS.

Kent's Commentaries, (select chapters;) Greenleaf on Evidence; Adams' Equity; Mitford's Equity Pleading; Indiana Revised Statutes of 1852, (selections with reference to practice in the State Courts, in Civil and Criminal cases.)

Both classes will, as far as practicable, pursue a parallel course of reading, under the direction of the Professor.

There will be a Moot Court, every Saturday during the session, in which the students of both classes will be exercised in the preparation of pleadings, rules of practice, discussion of legal questions, &c.

Students are graduated after an attendance of not less than two sessions in the Law School, when found proficient by the Faculty of the University.

Candidates for graduation will be required to undergo a public examination, and such other exercises as the Faculty may appoint.

The classes will have access to a good Law Library, for purposes of reference, but each student must provide his own text books.

The Codes of Procedure and Rules of Practice introduced by recent legislation, will have a prominent place in the course of instruction; while sufficient attention will be given to Common Law forms and principles to qualify the students for practice in those States where they obtain.

The tuition fee is Thirty Dollars, payable in advance. Graduation

fee, Five Dollars. Good boarding can be had, in private families, at about Two Dollars and a half per week, exclusive of fuel and lights.

Law students will be allowed to attend lectures and recitations in the University classes, free of charge.

The Board of Trustees have decided that county students are not entitled to the benefit of free tuition in the Law School.

NORMAL DEPARTMENT.

This department is designed to prepare young men for the profession of teaching. Through it, the University designs to afford its aid in carrying forward the great scheme of public education, thus making itself an ally of the general school system of the State.

Lectures are given embracing the following subjects: education, its nature and design; physical education; intellectual education; moral education; æsthetical education; the history of education; an examination of the powers of the mind, especially with reference to receiving and communicating knowledge; school house architecture, including school furniture, grounds, &c.; organization and classification of schools; graded schools; the proper incentives for the school; rewards and punishments; modes of teaching different subjects; the office of teacher; his duties to himself, his school, and the public; duty of the State, in reference to educating its citizens; the educational policy of Indiana.

It is intended, in this course of lectures, to present, as nearly as may be, the whole duty of the teacher, and to point out such modes of school discipline and management as shall assist the young teacher in preparing for his great work. The members of this department are also required to write on various topics connected with education, and to discuss, in form of debate, such subjects as may be assigned by the Professor.

As auxiliary to the training of the Normal Class, the Board of Trustees have fitted up a room in one of the college buildings, and established a *model school*, under a teacher who has been trained in a Normal School, in order to present to the eye of the learner a common school, as nearly perfect as possible, in its order, arrangement, and modes of teaching; and also as a school of practice, in which to exercise and test the young teacher's ability and tact.

The course of lectures on the theory and practice of teaching commences on the first day of May, and continues during the summer term of the University. The student designing to qualify himself for teaching is, however, permitted to pursue any of the studies of the literary or scientific course, and may with profit enter the University at the opening of any term, as may suit his convenience.

In addition to the course of lectures on didactics, the student must pass an examination on the following subjects, in order to entitle him to a diploma from the University, as a qualified professional teacher, viz: reading, writing, linear drawing, mental and written arithmetic, book-keeping, geography, with outline maps, and the use of the globes, English grammar and composition, algebra, geometry, mensuration, surveying, natural philosophy, chemistry, human physiology, history, United States and general history of English literature, Constitution of the United States and of Indiana, and vocal music.

AGRICULTURAL DEPARTMENT.

In this department are embraced Natural Philosophy and Chemistry, both organic and inorganic, including an account of nutrition, growth and respiration, in the vegetable and animal economy, and analysis of soils and manures, ores, marls, &c., as connected with agriculture. The course also includes Geology.

Engineering.

This school is connected with the Mathematical and Chemical Departments. It proposes, besides the collegiate course in Mathematics and Natural Philosophy, to afford instruction in the theory of roads, railroads, canals and bridges, the laws of heat and steam, theory and construction of the steam engine, and topographical surveying.

Discipline.

The discipline of the Indiana University is intended to be strictly *parental*, and to accomplish its effect by appealing to the better principles of the heart, avoiding, if possible, severe and disgraceful punishment. It is designed to be *preventive*, rather than *penal*. But, if it should appear that the student is not susceptible of the influence of such discipline, he wi be returned to his friends, in the hope that under other circumstances he may yet form an estimable character.

Immoral, disorderly, or dishonorable conduct, habitual negligence of duty, or want of preparation, is always sufficient reason for directing a student to leave the University.

The Faculty will not, except in extraordinary cases, grant letters of dismission, or give leave of absence, until the close of the session, nor

until the student applying for such letter, or for leave of absence, shall have sustained his examination with his class.

The absence of a student, even for a few days, in term-time, exerts on his progress an evil influence, which is seldom fully appreciated by parents or guardians; hence no apology but that of sickness, or other unavoidable accident, is sufficient to excuse a student from a regular attendance at recitation.

As *teachers* and *scholars* come together in a University with objects and interests which are identical, we hold that they should always regard themselves as *co-workers* and *endeared friends*.

It is our cherished desire that the *Faculty* and *students* of this University should *always*, as at present, constitute an undivided, harmonious *family*, among whom the feelings most appropriate to *parents* and *children* shall constitute the paramount and characteristic relation.

Our system of government may be understood by its name: "*The Parental.*"

Religious Services.

1. The duties of each day during term-time will commence with religious services, consisting of reading a portion of Holy Scriptures, and prayer, which all are required to attend.

2. Every Sabbath, at 3 o'clock, P. M., a lecture on some moral or religious subject will be delivered by the PRESIDENT, in the University Chapel; and it is expected that all the students will attend.

It is also recommended by the Faculty that every student attend some other place of public worship on Sabbath morning, according to the direction or preference of his parents or guardian.

3. At all Chapel exercises, students are expected to be in their seats when the bell stops tolling.

Graduation and Degrees.

It is the design of the Faculty to maintain the highest standard of education which the state of society will admit. Therefore, none are permitted to graduate unless they have completed the prescribed course. However, students who complete the scientific and philosophical course only, receive diplomas certifying this fact.

The degree of Bachelor of Arts, in accordance with general usage, will be conferred on students who complete the Classical Course, and pass the examination in the same.

The degree of Bachelor of Sciences will be conferred on students who complete the Scientific Course, and pass the examinations in the same. This title borrowed from the French colleges, has already been introduced into the Lawrence Scientific School, of Harvard, to mark the graduation of a similar class of students.

The Degree of Master of Arts will not be conferred in course upon graduates of three years standing, but only on such graduates as have pursued professional or general scientific studies during that period.

EXPENSES.

Tuition fees are, in the College proper, eight dollars per term; in the law department, thirty dollars, and in the preparatory department, six dollars per term. In the model school, pupils are charged three dollars and fifty cents per term.

By an act of the Legislature of the State, two students from each county of the State, to be selected by the Board of County Commissioners, are admitted to any department of the University free of charge for tuition. County students are, however, charged one dollar per term for contingencies, as other students.

Students can board and lodge in private families at from $2,00 to $2,50 per week.

With regard to apparel or pocket money, it is earnestly recommended to all parents sending their children to this Institution, no matter how wealthy they may be, not to furnish them with extravagant means. The character and scholarship of students are often grieviously injured by a free indulgence in the use of money. Whatever is furnished beyond a moderate supply for ordinary expenses, exposes the student to numerous temptations, and endangers rather than increases his happiness and respectability.

As a precaution against extravagance, it is suggested that parents at a distance may deposit funds with some one residing in the vicinity of the Institution, and in whom they have confidence, who in that case may pay particular attention to the pecuniary concerns of the student, settle his bills and correspond with the parent, transmitting an account of his expenditure.

Literary Societies.

There are two Literary Societies, the Athenian and the Philomathean, connected with the University, nearly equal in numbers, and both in a flourishing condition. They are ornaments to the Institution, and very

materially assist in the mental training and discipline of youth. Donations to these associations are respectfully solicited, that they may as soon as possible repair the losses which they sustained in the burning of the University.

The anniversary of the Athenian Society is held on the 12th of February; that of the Philomathean, on the 4th of July.

New Building.

The new University Building is in the collegiate gothic style—simply and truly carried out. The exterior of closely set brick work, the openings of doors and windows on principal front having cut stone dressings, the quoins and gable copings, string and base courses of same material, (a beautiful cream colored limestone found in great abundance on the ground.) The length of front is 145 feet. The building consists of a center main building, 60 feet by 53 feet, and three stories high, gabled and surmounted by a bell turret at about 80 feet high. The chapel 66 by 50, society rooms, committee rooms, and professor's room, main hall and passages of communication to the wings, are in the center building.

The wings each about 38 feet by 26, also three stories high, but lower than the center—with intermediate spaces or side halls in which are placed stairs, (to approach the chapel from either side;) the library, museum, recitation rooms, law lecture room, law library, President's rooms, &c., &c., in the wings. Under one wing where the ground falls considerably, a laboratory may be had, or it may be used as a hot air room, fuel, stores, &c.

The site of the building is central across the line of the principal street, leading from the court house square, and with one end to the railroad, so that both fronts of the building and one end, (in all of which the character is preserved,) may be seen from the cars as they pass.

Site.

The village of Bloomington, the seat of the University, is pleasantly situated on the New Albany and Salem railroad, in an elevated and well watered limestone region. It is easy of access in all directions; and in point of morals, cheapness of living, and healthy climate, it is favorably located for the purposes of education. The population, consisting of

about two thousand persons, is moral and intelligent, and well calculated to exert a salutary influence on the youth who resort to the University.

By order of the Board, respectfully submitted.

WM. K. EDWARDS,
President of the Board of Trustees
Indiana University.

June 3d, 1857.

Apparatus and Cabinet.

The apparatus for chemical and philosophical illustrations is respectable.

The Mineralogical Cabinet contains many valuable and interesting specimens, to which additions are frequently made. Donations to this Department are respectively solicited from the friends and patrons of natural science.

Library.

DERBY DONATION.

An addition of over 800 volumes, (worth $1,500,) has been made to the University Library, by a munificent donation from H. W. Derby, Esq., of Cincinnati, the great Book Publisher of the West. The Faculty have taken great care in the selection of these Books from Mr. Derby's very large assortment of both European and American publications; so that this donation alone, will constitute a most valuable collection of standard works. An *Alcove* is being fitted up, in the new Library room, for their reception; where they will remain as an enduring, and ever speaking monument, to the memory of the generous and liberal donor, who is entitled to, and will receive, the warmest gratitude of all the friends of the University.

Hebrew, French and German.

The Hebrew, French and German languages are taught without any additional expense to the students.

The following text-books are used: Roediger's Gesenius' Hebrew Grammar, translated by T. J. Conant; Gesedius' Hebrew and English

Lexicon; Van Der Hooght's Hebrew Bible, revised by Hahn, Leeser and Jaquett; Levisac's French Grammar; Surenne's French Dictionaries; Adler's Progressive Reader; Adler's Dictionary.

General College Calendar.

The college year is divided into three terms. The first term begins seven weeks after the first Wednesday in August, and ends on the twenty-fourth of December.

The second term begins on the second of January, unless that day fall on Sunday, in which case it begins on the third of the month, and ends on the first Wednesday of April.

The third term begins four weeks after the first Wednesday in April, and ends on the first Wednesday of August, the day of commencement.

College Calendar, 1857-8.

The day of Commencement this year is the 5th of August.

The first Terms begins Thursday, September 24th, 1857, and ends Thursday, December 24th, 1857.

The second Term begins Monday, January 3d, 1858, and ends Wednesday, April 6th, 1858.

The third Term begins Thursday, May 5th, 1858, and ends Wednesday, August 3d, 1858.

Notices.

The examination of the Classes will take place on the 31st day of July, and the 1st and 3d days of August.

The Board of Trustees will meet on Saturday, the 1st day of August, at 9 o'clock A. M.

The Baccalaureate will be delivered to the Senior Class, by the President, on Sunday, the 2d day of August, at 3 o'clock P. M., in the University Chapel.

The Annual Address before the "Philomathean Society," will be delivered on Monday, the 3d of August, in the evening, by Hon. R. W. Thompson, A. M., of Terre Haute, Indiana.

The Annual Addresses before the "Society of the Alumni," will be delivered on Tuesday, the 4th of August, at 10 o'clock A. M., by Hon. W. McKee Dunn and John W. Foster, Esq.

On Tuesday, the 4th of August, at 2 o'clock P. M., an Address will be delivered before the Society of the "Beta Theta Pi," by Dr. E. Williams, A. M., of Cincinnati—and also a *Poem*, by Prof. E. E. Edwards, A. M., of Whitewater College.

The Annual Address before the "Athenian Society," will be delivered on Tuesday, the 4th of August, in the evening, by Hon. C. L. Dunham.

Wednesday, the 5th of August, is Commencement Day. The exercises will commence at 9 o'clock A. M.

Sphere and Object of the University.

It is believed that our University, under its present organization, including the provision authorizing two students from each county to receive instruction free of charge, greatly facilitates the obtaining of a classical education by young men whose parents are in moderate or even indigent circumstances. It is a common, but a very incorrect opinion, that colleges are institutions for the rich alone. It may be of comparatively little moment to our wealthy citizens whether there be a college in Indiana at all, and what its character may be. They have the means of sending their children to Universities in other States or in Europe. It has been estimated that, even with the number of colleges now in our State, upwards of one hundred young men, sons of our citizens, are now pursuing their collegiate studies without its limits; and if the number of colleges in the State were lessened, the number of non-resident students would be proportionably increased. In that case, too, many who now obtain a collegiate education, would be deprived of its advantages. The larger portion of students in our University are aspiring young men from the middle, and even from the very humble walks of life; many of them having, by their own efforts, procured the means of their education, and not a few of them, for the sake of learning, denying themselves what most would consider the necessaries of life.

The best and wisest men our country ever produced, have favored the establishment of institutions of classical learning. Washington endowed a college with lands, the proceeds of which yield a larger revenue than that of the Indiana University. Jefferson gave the last seventeen years of his life to founding the Virginia University, and desired no other memorial with posterity than as the Author of the Declaration of Independence and the Father of the University of Virginia. Franklin, the practical and the self-taught, was the founder of the University of

Pennsylvania. The framers of our former Constitution united, in the same scheme of instruction, common schools and a State University. And, in truth, common schools and colleges go together. They are mutual friends and helpers. They flourish in the same soil. They harmonize in the same system. The common school furnishes to the younger classes of the University, well-trained scholars. The University, in return, elevates the general standard of teaching and qualifications of teachers, and, especially where a normal department is established, supplies well-trained teachers to the common school.

In conclusion, the Board remark that the institution which has been placed in their charge has no rivalry with other institutions in the State. She sends kind and cordial greeting to every other seminary of sound learning belonging to whatever party or sect. There is room for all and work for all. But for herself, standing alone, the one only institution of similar grade in the State, placed outside the pale of all sectarian or other restrictive influence, she commends herself to a wise and liberal policy from the General Assembly, and to the fostering care and patronage of the whole people of Indiana.

APPENDIX.

ALUMNI

OF

INDIANA UNIVERSITY.

Names.	*Residence.*	*Profession.*
1830.		
James S. Rollinz, A. M.,	Columbia, Mo.,	Lawyer.

Thomaz J. Wolfe, A. B.,	Bloomington, Ind	Student.

Besides the foregoing, a large number of young men have completed such a course of education in the Institution, as has enabled them to enter professional life with great usefulness and respectability; but, in consequence of the omission of some one or more of the studies prescribed in the full course, they have not been candidates for degrees.

THE LIBRARY OF THE
APR 22 1931
UNIVERSITY OF ILLINOIS.

HONORARY DEGREES.

The following have received, at various times, the honorary degrees attached to their respective names:

Rev. Calvin E. Stowe, D. D. ..... *Cincinnati.*
Rev. Wm. H. McGuffey, D. D. ..... *University of Virginia.*
Rev. Wm. Henry, D. D. ..... *Ireland.*
Rev. S. T. Studtevant, D. D. ..... *England.*
Rev. S. W. Crawford, D. D. ..... *Philadelphia.*
Rev. Wm. M. Daily, D. D ..... *Indiana.*
Hon. Charles Dewey, L. L. D. ..... *Indiana.*
Hon. James Scott, L. L. D. ..... *Indiana.*
Hon. Isaac Blakford, L. L. D. ..... *Indiana.*
Rev. Alfred Ryors, D. D. ..... *Center College, Ky.*
Hon. David McDonald, L. L. D. ..... *Indiana.*
Rev. Allen Wiley, A. M. ..... *Indiana.*
Rev. Samuel K. Hoshour. A. M ..... *Indiana.*
Rev. E. R. Ames, A. M. ..... *Indiana.*
C. C. Pering, A. M. ..... *Kentucky.*
Hon. Abner T. Ellis, A. M. ..... *Indiana.*
Rev. Bishop Kavanaugh, D. D. ..... *Kentucky.*
Rev. Patrick H. Greenleaf, D. D. ..... *Cincinnati.*
Rev. Abel Stevens, L. L. D. ..... *New York City.*
Dr. David Hutchinson, A. M. ..... *Mooresville.*
Rev. Werter R. Davis, A. M. ..... *St. Louis, Mo.*
Dr. Ira G. Hendricks, A. M. ..... *Madison, Ind.*
Rev. Sydney Dyer, A. M. ..... *Indianapolis.*

Junior Class	9
Sophomore Class	24
Freshman Class	45
Preparatory Department, 1st Class	76
Preparatory Department, 2nd Class	44
Law Department	15
Total	231

EXPLANATORY NOTE.

N. B. The Board of Trustees, at their last annual meeting, abolished the "*Model School*," having no means at their command for properly carrying on the *Normal Department*, at present. Deducting the number formerly in attendance upon the *Model School*, from former *Summaries*, and our *Summary* for this year, shows a larger number of Students in attendance than that of any previous year, in the history of the University. And the number in actual attendance at present, is much larger than was ever known before during a Summer Term.

COURSE OF INSTRUCTION.

PREPARATORY DEPARTMENT.

Mitchell's Ancient and Modern Geographies,
Butler's English Grammar,
Ray's Arithmetic,
Algebra—(Ray's First Part,)
Wilson's American History,
Bullion's Latin Grammar and Reader,
Kuehner's Greek Grammar and Exercises,
Cæsar's Commentaries,
Virgil,
Cicero's Orations,
Latin and Greek Exercises,
English Composition and Declamation.

FRESHMAN CLASS.

FIRST TERM.—Livy,
Græca Majora,
Grecian and Roman Antiquities (Bojesen,)
Algebra, (Ray's Second Part,)
Latin, Greek and English Composition,
Elocution.

SECOND TERM.—Livy,
Græca Majora,
Grecian and Roman Antiquities,
Algebra, completed,
Geometry, commenced (Davies' Legendre,)
Latin, Greek and English Composition,
Elocution.

THIRD TERM.—Horace's Odes,
Græca Majora,

Geometry, completed (Davies' Legendre,)
History,
Latin, Greek and English Composition,
Elocution.

SOPHOMORE CLASS.

FIRST TERM.—Horace's Satires and Epistles,
Græca Majora,
Application of Algebra to Geometry,
Plain and Spherical Trigonometry (Davies',)
Mensuration, (Davies',)
Descriptive Geometry, commenced, (Davies',)
English Literature,
Elocution,
Latin, Greek and English Composition.

SECOND TERM.—Horace finished,
Græca Majora,
Descriptive Geometry,
Surveying, (Davies',)
Analytical Geometry, commenced, (Davies',)
Rhetoric (Blair,)
Latin, Greek and English Composition,
Elocution.

THIRD TERM.—Terence,
Homer's Iliad or Odyssey,
Analytical Geometry,
Rhetoric, (Campbell,)
Latin, Greek and English Composition,
Elocution.

JUNIOR CLASS.

FIRST TERM.—Mental Philosophy, (Reid,)
Chemistry, (Silliman,)
Tacitus,
Greek Drama,
Analytical Geometry completed,
Calculus, commenced, (Davies',)
Exercises in English Composition and Declamation.

SECOND TERM.—Logic (Coppee,)
Mechanics, (Bartlett,) commenced,
Agricultural Chemistry,
Juvenal,
Greek Drama,
Calculus,
Exercises in English Composition and Declamation.

THIRD TERM.—Mechanics, completed,
Political Economy (Say,)
Juvenal,
Greek Drama,
Calculus, finished,
English Composition and Declamation.

SENIOR CLASS.

FIRST TERM.—Geology, (St. John,)
Physiology,
Moral Philosophy (Stewart,)
Evidences of Christianity,
Cicero de Oratore,
Pindar,
Civil Engineering,
English Composition and Declamation.

SECOND TERM.—Moral Philosophy (continued,)
International Law, (Kent,)
Acoustics and Optics, (Bartlett,)
Selections from the Latin and Greek Classics,
German Language and Literature, (optional,)
Hebrew Language and Literature, (optional,)
English Composition and Declamation.

THIRD TERM.—Astronomy,
Constitution of the United States, (Story,)
Elements of Criticism, (Kames,)
Selections from the Latin and Greek Classics,
French Language and Literature, (optional,)
Hebrew Language and Literature, (optional,)
English Composition and Declamation.

SCIENTIFIC COURSE.

The following studies constitute the course necessary to be completed in order to graduation to the degree of Bachelor of Science:

Mitchell's Ancient and Modern Geographies,
Butler's English Grammar,
Ray's Arithmetic,
Algebra, (Ray's 1st Part,)
Wilson's American History,
English Composition and Declamation,
Algebra, (Ray's 2d Part,)
Geometry, (Davies' Legendre,)
Application of Algebra to Geometry,
Plane and Spherical Trigonometry, (Davies',)
Descriptive Geometry, (Davies',)
History,
Analytical Geometry, (Davies',)
English Literature,
Rhetoric,
Elements of Criticism,
Chemistry, (Silliman,)
Calculus, (Davies',)
Mental Philosophy, (Reid,)
Geology, (St. John,)
Agricultural Chemistry,
Physiology,
Mechanics, (Bartlett,)
Logic, (Coppee,)
Evidences of Christianity,
Political Economy, (Say,)
Moral Philosophy,
Surveying, (Davies',)
Civil Engineering,
International Law,
Acoustics and Optics, (Bartlett,)
Astronomy,
Constitution of the United States,
Butler's Analogy.

LECTURES.

In connection with the prescribed Text Books, lectures are delivered on History, Grecian and Roman Antiquities, Didactics, English Literature, Rhetoric, Logic, Belles Lettres, Chemistry, Geology, Physiology, Natural Philosophy, Astronomy, Mental and Moral Philosophy, International Law, and Political Economy.

Mode of Instruction.

The recitations and examinations are conducted with a strict regard to the mental discipline of the students. The development of the intellectual and moral faculties, the formation of correct habits of thought and study, and the communication of useful knowledge, are the three paramount objects of every recitation, in all the departments of the University.

Admission.

1. All candidates for admission into the Preparatory Department must be at least twelve years of age. They will be examined, and must prove themselves able to write a legible hand, to spell with correctness English words in common use, and to read plain English prose with ease and intelligibleness.

2. All applicants who wish to enter the Preparatory Department are required to present themselves for examination on the first day of the term.

3. All candidates for admission into any of the advanced classes must furnish satisfactory evidence that they have completed the preceding studies of the course, or submit to an examination upon them before the Faculty.

4. Undergraduates, coming from other institutions of learning, are required to bring letters of honorable dismission.

5. Before being admitted to a recitation each student will procure a *Quietus* from the Secretary of the Board, showing that his term-bills have been paid to the Treasurer, and present it to the President.

6. Two students from each county in the State, to be selected by the Board of County Commissioners, are entitled to tuition, free of charge, in the departments of the University.

7. Whenever the further connection of any student with the University shall be deemed by the Faculty undesirable, on account of particular misdemeanor, or of general neglect of duty, and disregard of regulations, such student may be privately or publicly dismissed: and in every case the reasons for dismission shall be given.

Studies and Recitations.

1. Students will pursue the studies of the classes to which they are assigned, unless exempted for special reasons.

2. No student will take a study to which he has not been assigned, nor discontinue a study, without permission obtained from the Faculty.

3. Permission to be absent from a recitation must, if practicable, be obtained of the Professor, beforehand; if not thus obtained, excuse must be rendered as soon after as possible.

4. Every student is required to attend three recitations or lectures a day; and a faithful record of the attainments and delinquencies of each student is kept by the Professors, and transmitted to parents and guardians as often as they may think necessary.

Examinations.

1. At the close of each term there is a public examination of all the classes in the University, and each member of the class is required to be present.

2. In all cases, when from any cause, a student has failed to be present at the regular examination, he shall undergo an examination before being permitted again to join the University.

LAW DEPARTMENT.

The course of instruction in the Law Department begins, annually, on the first Monday in December, and continues for a term of three months. The students are divided into two classes; the Junior and Senior.

TEXT BOOKS OF THE JUNIOR CLASS.

Blackstone's Commentaries, (select chapters;) Kent's Commentaries, (select chapters;) Smith on Contracts; Stephens on Pleading.

TEXT BOOKS OF THE SENIOR CLASS.

Kent's Commentaries, (select chapters;) Greenleaf on Evidence; Adams' Equity; Mitford's Equity Pleading; Indiana Revised Statutes of 1852, (selections with reference to practice in the State Courts, in Civil and Criminal cases.)

Both classes will, as far as practicable, pursue a parallel course of reading, under the direction of the Professor.

There will be a MOOT COURT, every Saturday during the session, in which the students of both classes will be exercised in the preparation of pleadings, rules of practice, discussion of legal questions, &c.

Students are graduated after an attendance of not less than two sessions in the Law School, when found proficient by the Faculty of the University.

Candidates for graduation will be required to undergo a public examination, and such other exercises as the Faculty may appoint.

The Codes of Procedure and Rules of Practice introduced by recent legislation, will have a prominent place in the course of instruction; while sufficient attention will be given to Common Law forms and principles to qualify the students for practice in those States where they obtain.

The tuition is Twenty-five Dollars for the Senior Class, and Twenty Dollars for the Junior Class. Graduation fee, Five Dollars.

Good boarding can be had, in private families, at about Two Dollars and a half per week, exclusive of fuel and lights.

Law students will be allowed to attend lectures and recitations in the University classes, free of charge.

The Board of Trustees have decided that county students are not entitled to the benefit of free tuition in the Law School.

AGRICULTURAL DEPARTMENT.

This department embraces Natural Philosophy and Chemistry, both organic and inorganic, and Geology—thus teaching the first principles of Scientific Agriculture—and embracing as far as practicable the analysis of soils, ores, manures, marls, &c.

Engineering.

This school is connected with the Mathematical and Chemical Departments. It proposes, besides the collegiate course in Mathematics and Natural Philosophy, to afford instruction in the theory of roads, railroads, canals and bridges, the laws of heat and steam, theory and construction of the steam engine, and topographical surveying.

Discipline.

The discipline of the Indiana University is intended to be strictly *parental*, and to accomplish its effect by appealing to the better principles of the heart, avoiding, if possible, severe and disgraceful punishment. It is designed to be *preventive*, rather than *penal*. But, if it should appear that the student is not susceptible of the influence of such discipline, he will be returned to his friends, in the hope that under other circumstances he may yet form an estimable character.

Immoral, disorderly, or dishonorable conduct, habitual negligence of duty, or want of preparation, is always sufficient reason for directing a student to leave the University.

The Faculty will not, except in extraordinary cases, grant letters of dismission, or give leave of absence, until the close of the session, nor

until the student applying for such letter, or for leave of absence, shall have sustained his examination with his class.

The absence of a student, even for a few days, in term-time, exerts on his progress an evil influence, which is seldom fully appreciated by parents or guardians; hence, no apology but that of sickness, or other unavoidable accident, is sufficient to excuse a student from a regular attendance at recitation.

As *teachers* and *scholars* come together in a University with objects and interests which are identical, we hold that they should always regard themselves as *co-workers* and *endeared friends.*

It is our cherished desire that the *Faculty* and *students* of this University should *always*, as at present, constitute an undivided, harmonious *family*, among whom the feelings most appropriate to *parents* and *children* shall constitute the paramount and characteristic relation.

Our system of government may be understood by its name: "*The Parental.*"

Religious Services.

1. The duties of each day during term-time will commence with religious services, consisting of reading a portion of Holy Scriptures, and prayer, which all are required to attend.

2. Every Sabbath, at 3 o'clock, P. M., a lecture on some moral or religious subject will be delivered by the PRESIDENT, in the University Chapel; and it is expected that all the students will attend.

It is also recommended by the Faculty that every student attend some other place of public worship on Sabbath morning, according to the direction or preference of his parents or guardian.

3. At all Chapel exercises, students are expected to be in their seats when the bell stops tolling.

Graduation and Degrees.

It is the design of the Faculty to maintain the highest standard of education which the state of society will admit. Therefore, none are permitted to graduate unless they have completed the prescribed course. However, students who complete the scientific and philosophical course only, receive diplomas certifying this fact.

The degree of Bachelor of Arts, in accordance with general usage, will be conferred on students who complete the Classical Course, and pass the examination in the same.

The degree of Bachelor of Sciences will be conferred on students who complete the Scientific Course, and pass the examinations in the same. This title, borrowed from the French colleges, has already been introduced into the Lawrence Scientific School, of Harvard, to mark the graduation of a similar class of students.

The degree of Master of Arts will not be conferred in course upon graduates of three years standing, but only on such graduates as have pursued professional or general scientific studies during that period.

EXPENSES.

Tuition fees are, in the College proper, eight dollars per term; in the Law Department, thirty dollars, and in the Preparatory Department, six dollars per term. In the Model School, pupils are charged three dollars and fifty cents per term.

By an act of the Legislature of the State, two students from each county of the State, to be selected by the Board of County Commissioners, are admitted to any department of the University free of charge for tuition. County students are, however, charged one dollar per term for contingencies, as other students.

Students can board and lodge in private families at from $2.00 to $2.50 per week.

With regard to apparel or pocket money, it is earnestly recommended to all parents sending their children to this Institution, no matter how wealthy they may be, not to furnish them with extravagant means. The character and scholarship of students are often grievously injured by a free indulgence in the use of money. Whatever is furnished beyond a moderate supply for ordinary expenses, exposes the student to numerous temptations, and endangers rather than increases his happiness and respectability.

As a precaution against extravagance, it is suggested that parents at a distance may deposit funds with some one residing in the vicinity of the Institution, and in whom they have confidence, who in that case may pay particular attention to the pecuniary concerns of the student, settle his bills and correspond with the parent, transmitting an account of his expenditure.

Literary Societies.

There are two Literary Societies, the Athenian and the Philomathean, connected with the University, nearly equal in numbers, and both in a flourishing condition. They are ornaments to the Institution, and very

materially assist in the mental training and discipline of youth. Donations to these associations are respectfully solicited, that they may as soon as possible repair the losses which they sustained in the burning of the University.

The anniversary of the Athenian Society is held on the 12th of February; that of the Philomathean, on the 4th of July.

New Building.

The new University Building is in the collegiate gothic style—simply and truly carried out. The exterior of closely set brick work, the openings of doors and windows on principal front having cut stone dressings, the quoins and gable copings, string and base courses of same material, (a beautiful cream-colored limestone found in great abundance on the ground.) The length of front is 145 feet. The building consists of a center main building, 60 feet by 53 feet, and three stories high, gabled and surmounted by a bell turret, at about 80 feet high. The Chapel, 66 by 50, society rooms, committee rooms, and professor's room, main hall and passages of communication to the wings, are in the center building.

The wings each about 38 feet by 26, also three stories high, but lower than the center—with intermediate spaces or side halls in which are placed stairs, (to approach the Chapel from either side;) the library, museum, recitation rooms, law lecture room, law library, President's rooms, &c., &c., in the wings. Under one wing where the ground falls considerably, a laboratory may be had, or it may be used as a hot air room, fuel, stores, &c.

The site of the building is central across the line of the principal street, leading from the Court-house square, and with one end to the railroad, so that both fronts of the building and one end, (in all of which the character is preserved,) may be seen from the cars as they pass.

Site.

The village of Bloomington, the seat of the University, is pleasantly situated on the New Albany and Salem railroad, in an elevated and well watered limestone region. It is easy of access in all directions; and in point of morals, cheapness of living, and healthy climate, it is favorably located for the purposes of education. The population, consisting of

about two thousand persons, is moral and intelligent, and well calculated to exert a salutary influence on the youth who resort to the University.

Apparatus and Cabinet.

The apparatus for chemical and philosophical illustrations is respectable.

The Mineralogical Cabinet contains many valuable and interesting specimens, to which additions are frequently made. Donations to this Department are respectfully solicited from the friends and patrons of natural science.

Library,

DERBY DONATION.

An addition of over 800 volumes, (worth $1,500,) has been made to the University Library, by a munificent donation from H. W. Derby, Esq., of Cincinnati, the great Book Publisher of the West. The Faculty have taken great care in the selection of these Books from Mr. Derby's very large assortment of both European and American publications; so that this donation alone, will constitute a most valuable collection of standard works. An *Alcove* is being fitted up, in the new Library room, for their reception; where they will remain as an enduring and ever-speaking monument to the memory of the generous and liberal donor, who is entitled to, and will receive, the warmest gratitude of all the friends of the University.

Hebrew, French and German.

The Hebrew, French and German languages are taught without any additional expense to the students.

The following text-books are used: Roediger's Gesenius' Hebrew Grammar, translated by T. J. Conant; Gesenius' Hebrew and English

Lexicon: Van Der Hooght's Hebrew Bible, revised by Hahn, Leeser and Jaquett; Levisac's French Grammar; Surenne's French Dictionaries; Adler's Progressive Reader; Adler's Dictionary.

Sphere and Object of the University.

It is believed that our University, under its present organization, including the provision authorizing two students from each county to receive instruction free of charge, greatly facilitates the obtaining of a classical education by young men whose parents are in moderate or even indigent circumstances. It is a common, but a very incorrect opinion, that Colleges are institutions for the rich alone. It may be of comparatively little moment to our wealty citizens whether there be a College in Indiana at all, and what its character may be. They have the means of sending their children to Universities in other States or in Europe. It has been estimated that, even with the number of Colleges now in our State, upwards of one hundred young men, sons of our citizens, are now pursuing their collegiate studies without its limits; and if the number of Colleges in the State were lessened, the number of non-resident students would be proportionably increased. In that case, too, many who now obtain a collegiate education, would be deprived of its advantages. The larger portion of students in our University are aspiring young men from the middle, and even from the very humble walks of life; many of them having, by their own efforts, procured the means of their education, and not a few of them, for the sake of learning, denying themselves what most would consider the necessaries of life.

The best and wisest men our country ever produced, have favored the establishment of institutions of classical learning. Washington endowed a College with lands, the proceeds of which yield a larger revenue than that of the Indiana University. Jefferson gave the last seventeen years of his life to founding the Virginia University, and desired no other memorial with posterity than as the Author of the Declaration of Independence and the Father of the University of Virginia. Franklin, the practical and the self-taught, was the founder of the University of Pennsylvania. The framers of our former Constitution united, in the same scheme of instruction, Common Schools and a State University. And, in truth, Common Schools and Colleges go together. They are mutual friends and helpers. They flourish in the same soil. They harmonize in the same system. The Common School furnishes to the younger classes of the University, well-trained scholars. The University, in return, elevates the general standard of teaching and qualifications of

teachers, and, especially where a normal department is established, supplies well-trained teachers to the Common School.

In conclusion, the Board remark that the Institution which has been placed in their charge has no rivalry with other institutions in the State. She sends kind and cordial greeting to every other Seminary of sound learning belonging to whatever party or sect. There is room for all and work for all. But for herself, standing alone, the one only Institution of similar grade in the State, placed outside the pale of all sectarian or other restrictive influence, she commends herself to a wise and liberal policy from the General Assembly, and to the fostering care and patronage of the whole people of Indiana.

General College Calendar.

The College year is divided into three Terms. The First Term begins on the 24th of September, and ends on the 24th of December.

The Law Term begins on the first Monday in December, and continues three months.

The Second Term begins on the 2d of January, and ends on the 31st of March.

The Third Term begins on the 15th of April, and ends on the Thursday nearest to the 15th of July.

Should any of the above dates fall on *Sunday*, the following *Monday* is taken instead.

College Calendar for 1858-9.

Commencement Day, Thursday, July 15th, 1858.
First Term begins on Thursday, September 23d, 1858.
First Term ends on Friday, December 24th, 1858.
Law Term begins on Monday, December 6th, 1858.
Second Term begins on Monday, January 3d, 1859.
Second Term ends on Thursday, March 31st, 1859.
Third Term begins on Friday, April 15th, 1859.
Third Term ends with *Commencement Day*, Thursday, July 14th, 1859.

Notices.

The examination of the Classes will commence on Friday the 9th of July, and be continued from day to day until completed.

The BACCALAUREATE will be delivered to the SENIOR CLASS, by the PRESIDENT, on Sunday, the 11th of July, at 3 o'clock, P. M., in the University Chapel.

The Board of Trustees will meet on Monday, the 12th day of July, at 9 o'clock, A. M.

The Annual Address before the "ATHENIAN SOCIETY," will be delivered on Monday, the 12th of July, in the evening, by REV. D. W. CLARKE, D. D., of Cincinnati.

The Annual Address before the "PHILOMATHEAN SOCIETY," will be delivered on Tuesday, the 13th of July, in the evening, by REV. R. S. FOSTER, D. D., of the Northwestern University, Illinois.

The Annual Address before the "SOCIETY OF THE ALUMNI," will be delivered on Wednesday, the 14th of July, at 2 o'clock, P. M., by DR. THEOPHILUS PARVIN, A. M., of Indianapolis.

Thursday, the 15th of July, is COMMENCEMENT DAY. The exercises witl commence at 9 o'clock, A. M.

By order of the Board, respectfully submitted,

JAMES HUGHES,
President of the Board of Trustees
Indiana University.

MAY 22d, 1858.

ERRATUM.—The following should have appeared in the proper place in the Senior Class:

FRANK R. DORMAN.....Manchester, Ind.

APPENDIX.

ALUMNI

OF

INDIANA UNIVERSITY.

Names.	*Residence.*	*Profession.*
1830.		
James S. Rollins, A. M.,	Columbia, Mo	Lawyer.
James W. Dunn. A. M.,	Frankfort, Ind	Lawyer.
Michael Hummer, A. M.,	(Deceased)	Minister.
Wm. H. Stockwell, A. M.,	New Orleans	Merchant.
1831.		
Lewis Bollman, A. M.,	Monroe Co. Ind	Farmer.
Charles McM. Randall, A. M.,	(Deceased)	
Thomas Miller, A. M.,		
1832.		
Wm. McKee Dunn, A. M.,	Madison, Ind	Lawyer.
George Porter, A. M.,		Minister.
Josiah Porter, A. M.,		Minister.
James M. Stagg, A. M.		
Andrew Wylie, A. M.,	Alexandria, Va	Lawyer.
1833.		
James D. Maxwell, A. M., M. D.,	Bloomington, Ind	Physician.

Names.	*Residence.*	*Profession.*
Lewis Ketcham, A. M.,	Indianapolis	Lawyer.
Samuel Alexander, A. M., M. D.,	Mississippi	Physician.

1834.

Wm. H. B. Custis, A. M.,	Accomac, Va.	Farmer.
James F. Dodds, A. M., M. D.,	Bloomington, Ind.	Physician.
Joseph G. McPheeters, A. M., M. D.,	Bloomington, Ind.	Physician.
Thomas J. Wilson, A. M.,	Logansport, Ind	Farmer.

1835.

Parker Campbell, A. M.,	Virginia	
John S. Watts, A. M.,	Santa Fe	Lawyer.
John Pursell, A. M.		
David M. Elliott, A. M.,	Mississippi	

1836.

Matthew M. Campbell, A. M.,	Bloomington, Ind.	Teacher.
Wm. M. Daily, D. D., LL. D.,	Indiana University.	Minister.
Wm. H. Jones, A. M.,	Bloomington, Ind.	Teacher.
Jesse W. Lowe, A. M.,	Omaha, Neb. Ter.	Speculator.
J. J. McClerkin, A. M.,	Illinois	Ministor.
A. Locke Roache, A. M.,	Rockville, Ind.	Lawyer.
Loyd T. Posey, A. M.,	Shawneetown, Ill.	Lawyer.
Andrew J. Thickston, A. M.,	(Deceased)	Minister.

1837.

John Dale, A. M.,	Kokomo	Minister.
Samuel L. Geiger, A. M.,	Kentucky	Farmer.
Richard H. Holman, A. M.,	(Deceased)	Lawyer.
E. D. C. McElrath, A. M.,	Mississippi	
George McAffee, A. M.,	Kentucky	
Joseph F. Nichols, A. M.,	(Deceased)	Merchant.
John W. H. Parker, A. M.,	Accomac, Va.	Lawyer.
Hugh T. Reed, A. M.,	Keokuk, Iowa	Lawyer.
George S. Sheets, A. M.,	(Deceased)	Lawyer.
Wm. Willis, A. M.,	(Deceased)	Farmer.

1838.

E. L. Armstrong, A. M.,	(Deceased)	
J. J. Presler, A. M.,	Mississippi	
Joshua Presler, A. M.,	Mississippi	
Wm. C. Hillis, A. M.,	Madison, Ind.	Lawyer.

Names.	*Residence.*	*Profession.*
Samuel F. Maxwell, A. M.,	Rockville, Ind.	Lawyer.
John W. Morrison, A. M.,	Thorn Grove Ill	Minister.
Samuel Parks, A. M.,	Illinois	Teacher.
Howard Stapp, A. M.,	St. Louis, Mo	Lawyer.
James M. Townsend, A. M.,	Clay Co., Ia	Teacher.
Geoege E. West, A. M.,	Indianapolis	Merchant.
Craig Wylie, A. M.,	(Deceased)	

1839.

John A. Clement, A. M.,	(Deceased)	
Seth M. Leavenworth, A. M.,	Mt. Vernon, Ind	Merchant.
Adam Marshall, A. M.,	Eden, Ill	Teacher.
Elam H. Waugh, A. M., M. D.,		Physician.
Thomas D. Wise, A. M.,	(Deceased)	
Francis West, A. M.,	(Deceased)	
George G. Wright, A. M.,	Keosauqua, Iowa	Lawyer.

1840.

John W. Dunbar, A. M.,	Natchez, Miss	Lawyer.
Matthew L. Elder, A. M.,	Chester, S. C.	Teacher.
Wm. K. Edwards, A. M.,	Terre Haute, Ind.	Lawyer.
Z. K. M. Hoge, A. M.,	Texas	Farmer.
John R. Cravens, A. M.,	Madison, Ind.	Farmer.

1841.

Richard T. Allison, A. M.,		Purser U. S. N.
John F. Dodds, A. M.,	Logansport, Ind	Lawyer.
A. R. Shannon, A. M.,	Carmi, Ill	Merchant.
John H. Wylie, A. M., M. D.,	(Deceased)	Physician.
Charles B. Thomas, A. M.,	Lexington, Ky.	Judge.

1842.

Isaac B. Gwathmey, A. M.,	(Deceased)	Lawyer.
Samuel Millen, A. M.,	Monmouth, Ill.	Minister.
George A. Munson, A. M.,	(Deceased)	Lawyer.
David W. Stormont, A. M., M. D.,	Illinois	Physician.
Henry Tanner, A. M.,	Illinois	Lawyer.
James Woodburn, A. M.,	Indiana University	Teacher.

1843.

Richard Gwathmey, A. M.,	Louisville, Ky.	
Wm. H. Head, A. M.,		Minister.

Names.	*Residence.*	*Profession.*
John A. Hendricks, A. M.,	Madison, Ind.	Lawyer.
James S. Hester, A. M.,	Nashville, Ind.	Lawyer.
Hugh A. McKelvy, A. M.,	Sparta, Ill.	Minister.
John O. McKinney, A. M.,	(Deceased)	
S. C. Millen, A. M.,	North Carolina	Minister.
Samuel T. Wylie, A. M.,	(Deceased)	Lawyer.

1844.

R. Newton Fee, A. M.,	Iowa	Minister.
Gabriel M. Overstreet, A. M.,	Franklin, Ind	Lawyer.
Paul Seig, A. M.,	Corydon, Ind.	Teacher.

1845.

Jesse J. Alexander, A. M.,	Gosport, Ind.	Farmer.
Boza K. Archer, A. M.,	(Deceased)	
John P. Campbell, A. M.,	Pennsylvania	Minister.
George A. Hauser, A. M.,	(Deceased)	
John A. Milleen, A. M.,	(Deceased)	Lawyer.
R. Q. Roache, A. M.,	Tennessee	Physician.
Wm. E. Simpson, A. M.,	(Deceased)	
Barton W. Wilson, A. M.,	Greensburgh, Ind.	Lawyer.

1846.

Thomas P. Connelly; A. M.,	Lafayette, Ind.	Minister.
Jonathan Clark, A. M.,	Louisville, Ky.	
Thomas B. Graham, A. M.,	Jasper, Ind.	
Samuel N. Martin, A. M.,		Mis. to China.
William P. Martin, A. M.,		Mis. to China.
Alexander McCaughan, A. M.,	(Deceased)	
Robert R. Roberts, A. M.,	Newburgh, Ind.	
Washington M. Sharp, A. M.,	Abbeville, S. C.	
David Shuck, A. M.,	Hartsville, Ind.	Teacher.
Homer Wheeler, A. M.,	Bristol, Ind.	Minister.

1847.

Russel B. Abbett, A. M.,	Brookville, Ind.	Minister.
Daviess Batterton, A. M.,	Greensburgh, Ind.	Editor.
John O. Bullock, A. M.,	Louisville, Ky.	Lawyer.
Robert B. Campbell, A. M.,	(Deceased)	
Theophilus Parvin, A. M., M. D.,	Indianapolis	Physician.

1848.

Orlando Clark, A. M.,	Vernon, Ind.	Minister.

Names.	*Residence.*	*Profession.*
Robert Fullerton, A. M.,	(Deceased)	
Isaac W. Love, A. M.,	Corydon, Ind.	Lawyer.
Robert M. Overstreet, A. M.,	Georgetown, Texas	Minister.
Jefferson C. Thornton, A. M.,	Paoli, Ind.	Minister.
W. Theodore Wylie, A. M.,	Milton, Pa.	Minister.

1849.

Michael S. Bright, A. M.,	Superior City, Wis	Lawyer.
Alvah Johnson, A. M.,		
Charles McClean, A. M.,	Madison, Ind.	Merchant.
Wm. E. McLane, A. M.,	Terre Haute, Ind.	Lawyer.
James McD. Miller, A. M.,		Minister.
Blackford B. Moffatt, A. M.,	Terre Haute, Ind.	Lawyer.
James Woodward, A. M.,	Iowa	Merchant.

1850.

Robert G. Elliott, A. M.,	Liberty, Ind.	Lawyer.
Samuel S. Elliott, A. M.,	Liberty, Ind.	Teacher.
Robert C. Foster, A. M.,	Bloomington, Ind.	Auditor M. C.
Ara E. S. Long, A. M.,	Columbus, Ind.	
Littleton J. Powell, A. M.,	(Deceased)	
James Strean, A. M.,	(Deceased)	
Peter M. Vail, A. M.,	(Deceased)	
John H. Wise, A. M.,	Washington, D. C.	Lawyer.
George D. Wise, A. M.,	Washington, D. C.	Lawyer.
Obadiah J. Wise, A. M.,	Accomac, Va.	Lawyer.
John J. Wise, A. M.,	Accomac, Va.	Lawyer.
Alexander Yates, A. M., M. D.,	Utica, Miss.	Physician.

1851.

Nelson K. Crow, A. M.,	Sparta, Ill.	Minister.
David S. Farris, A. M.,	Eden, Ill.	Minister.
Wm. M. Henry, A. M.,	(Deceased)	
John M. Johnson, A. M.,	Portersville, Ind.	
John C. Smith, A. M.,	Ohio	Teacher.
Reddick M. Wylie, A. M.,	Bloomington, Ind.	Farmer.

1852.

George P. Ketcham, A. M.,	Bedford, Ind.	Dentist.
David H. McDonald, A. M., M. D.,	Quincy, Ind.	Physician.
Curran E. McDonald, A. M.,	Indianapolis	Lawyer.
Newton F. Malott, A. M.,	Bedford, Ind.	Lawyer.

Names.	*Residence.*	*Profession.*
Josiah Miller, A. M.,	Kansas, Ter.	Lawyer.
Thomas Wheeler, A. M.,		Physician.
Anderson M. Wylie, A. M.,	Alexandria, Va.	Minister.

1853.

John C. K. Farris, A. M.,	Monroe Co., Ind.	Minister.
Wm. W. McMillen, A. M.,	Fountain Co., Ind.	Minister.

1854.

John J. Hight, A. M.,	Indiana	Minister.
Lewis A. Keller, A. M.,	(Deceased)	Lawyer.
Theodore Read, A. M.,	Washington, D. C.	Lawyer.
Robert L. Ruddick, A. M.,	Keokuk, Iowa	Banker.
John H. Ketcham, A. M.,	Indiana	Minister.
Wm. H. Lemon, A. M.,	Burlington, Iowa	Teacher.

1855.

W. Cyrus Barber, A. B.,	Illinois	Teacher.
Robert B. Carnahan, A. B.,	Nebraska Ter.	Merchant.
John W. Foster, A. B.,	Evansville, Ind.	Lawyer.
Melville C. Hester, A. B.,	Charlestown, Ind.	Lawyer.
Robert Roberts Hitt, A. B.,	Mt. Morris, Ill.	Lawyer.
Robert I. Morrison, A. B.,	Salem, Ind.	Lawyer.
Achilles V. Pendleton, A. B.,	Vernon, Ind.	Teacher.
W. C. Linton Taylor, A. B.,	Lafayette, Ind.	Lawyer.
David D. Banta, B. S.,	Franklin, Ind.	Lawyer.
John A. Cartwright, B. S.,	Sugar Grove, Ind.	Teacher.
A. Lytle Jones, B. S.,	Valparaiso, Ind.	Lawyer.
John C. Miller, B. S.,		Teacher.

1856.

Henry W. Ballentine, A. B.,	N. York	Theo. Student.
S. Lybrand Binkley, A. B.,	Indiana	Minister.
Joseph S. Jenckes, A. B.,	Terre Haute, Ind.	Lawyer.
Richard M. Johnson, A. B.,	Laporte, Ind.	Teacher.
Madison Evans, A. B.,	New Albany, Ind.	Teacher.
Thomas J. Wolfe, A. B.,	Bloomington, Ind.	Law Student.

1857.

Hiram Allen, Jr., A. B.,	Delphi, Ind	Lawyer.
Stephen G. Burton, A. B.,	Perryville, Ky.	Lawyer.
James M. Clark, A. B.,	Demorestville, C. W.	Minister.

Names.	*Residence.*	*Profession.*
Hiram W. Cloud, A. B.,	Owensborough, Ky.	Teacher.
George W. Lee. A. B.,	Charlestown, Ind.	Teacher.
Augustus D. Lynch, A. B.,	Bloomington, Ind.	Teacher.
Hamilton S. McRae, A. B.,	Vincennes, Ind.	Teacher.
Uriah Mullikin, A. B.,	Bloomington, Ind.	Law Student.
John D. Pering, A. B.,	Princeton, N. J.	Theo. Student.
Wilbur F. Stone, A. B.,	Greencastle, Ind.	Lawyer.
Stephen Thrasher, A. B.,	Port Gibson, Miss.	Law Student.
Samuel M. Thomas, A. B.,	Bloomington, Ind.	Med. Student.
J. Howe Watts, A. B.,	Santa Fe, N. M.	Engineer.
George C. Wilson, A. B.,	Owensborough, Ky.	Teacher.
Jacob V. Wolfe, A. B.,	Glenndale, Ohio	Teacher.
James M. Brown, B. S.,	Clinton, Ind.	Law Student.
Alfred E. Graham, B. S.,	Bloomington, Ind.	Merchant.
David A. Robertson, B. S.,	Paris, Ind.	Teacher.

Besides the foregoing, a large number of young men have completed such a course of education in the Institution, as has enabled them to enter professional life with great usefulness and respectability; but, in consequence of the omission of some one or more of the studies prescribed in the full course, they have not been candidates for degrees.

HONORARY DEGREES.

The following have received, at various times, the honorary degrees attached to their respective names:

Rev. Calvin E. Stowe, D. D., ... *Cincinnati.*
Rev. Wm. H. McGuffey, D. D., ... *University of Virginia.*
Rev. Wm. Henry, D. D., ... *Ireland.*
Rev. S. T. Studtevant, D. D., ... *England.*
Rev. S. W. Crawford, D. D., ... *Philadelphia.*
Rev. Wm. M. Daily, D. D., ... *Indiana.*
Hon. Charles Dewey, LL. D., ... *Indiana.*
Hon. James Scott, LL. D., ... *Indiana.*
Hon. Isaac Blackford, LL. D., ... *Indiana.*
Rev. Alfred Ryors, D. D., ... *Center College, Ky.*
Hon. David McDonald, LL. D., ... *Indiana.*
Rev. Allen Wylie, A. M., ... *Indiana.*
Rev. Samuel K. Hoshour, A. M., ... *Indiana.*
Rev. E. R. Ames, A. M., ... *Indiana.*
C. C. Pering, A. M., ... *Kentucky.*
Hon. Abner T. Ellis, A. M., ... *Indiana.*
